SECTION A
Reading Skills

(20 marks)

1. Read the passage given below :

- 1 As a form of expression, graffiti is famously characterized by outlaw values; the creation and display of graffiti countered societal rules and was considered by some as vandalism. Not only was it symbolic of rebel values but was also linked to destruction of property. These links between graffiti culture and rebellion were age-old and some say, were popularized by hip-hop culture.
- 2 Imagine waking up one morning, to see your walls smeared with black paint — names, symbols, messages. The most interesting bit is that these wall artists were never caught red-handed. It was all done stealthily. It was almost as though people were marking their territory using painted symbols and slogans. The change was creeping in. Mobile numbers and captivating phrases gradually became marketing tools for free advertising. Catchy phrases tickled the curiosity and calls were made to those numbers.
- 3 Over a period of time, there was a shift in perception. Blank walls beckoned invitingly and artists saw whitewashed walls as an opportunity to display their work in free and open settings. The city became one large canvas; the illegal ‘gang activity’ became an art form on display in walking galleries. Graffiti was gradually being replaced and the stigma of illegality was being dropped. There was a move to embrace rather than condemn.

- 4 The colours, shapes, and subjects became cultural themes. What was once rebellious expression is artistic talent at its vibrant best, rich in images of plants, animals and unspoiled landscapes. The painted walls encouraged by residents and governments have created their own ecosystem — a reconciliation of nature with man-made forces.
- 5 The monotony and uniformity of urban life is today infused with human vitality and beauty. Cities speak proudly about the painted walls and clamour to be the first to preserve culture and history through these. Graphic displays of social awareness issues effectively and economically reach out to the common man. Silent art speaks volumes. Be it hygiene, conservation, education, or rights and duties — the message is conveyed in an animated, colourful manner without being an imposition.

No respectable man would ask it, much less give it." Yet Kipling had himself perpetrated such an 'assault' on Mark Twain only a few years before. H.G.
