7. Debris and coarse material carried and deposited by a glacier: _____
8. Small hills of sand piled by the wind: _____
9. Tidal wave triggered off by a large underwater earthquake: _____
10. Crustal plates are dragged by this layer of the earth due to convection currents: _____

Solutions

Who am I?

1. meander
2. flood plains
3. gorge
4. waterfall
5. delta
6. Mushroom rocks or pedestal rocks
7. Moraine
8. sand dunes
9. Tsunami
10. Asthenosphere
