

On Recovering from Serious illness

Dear Surbhi,

Heartiest congratulations on your complete victory over the Giant of Jaundice that gripped your life and liver like that of so many others who visited Delhi to see the India international Trade fair. This is your second life and I hope you will take better precautions against infectious diseases in future.

Do not worry about your home or office. Take it easy. Get all the rest you can. Write if you need any money. Come back to us hale and hearty like your olden and golden smiling self. Get better soon and stay well for ever.

Sincerely,

Neeru
