

## Applications of Computers in Accounting

---

Select the correct answer

Question 1.

SQL is:

- (a) Structured Query Language
- (b) Sequential Query Language
- (c) Structural Quantum Language

▼ Answer

Answer: (a) Structured Query Language

---

Question 2.

Visual Display Unit is

- (a) Hardware
- (b) Software
- (c) Timeware

▼ Answer

Answer: (a) Hardware

---

Question 3.

Random Access Memory is a type of:

- (a) Secondary Storage Device
- (b) Processor
- (c) Primary Storage Memory
- (d) Motherboard

▼ Answer

Answer: (c) Primary Storage Memory

---

Question 4.

The persons who design data processing systems are known as:

- (a) Operators
- (b) System Analysts
- (c) Programmers
- (d) Users

▼ Answer

Answer: (c) Programmers

---

Question 5.

Microsoft Word is a type of:

- (a) Application Software
- (b) Operating System
- (c) Hardware
- (d) Output Device

▼ Answer

Answer: (a) Application Software

---

Question 6.

Which of the following is not a part of a computer terminal?

- (a) Screen
- (b) Disk Drive
- (c) Floppy
- (d) Power Button

▼ [Answer](#)

Answer: (c) Floppy

---

Question 7.

A floppy is used

- (a) like a printer
- (b) to store data
- (c) to input data into computer

▼ [Answer](#)

Answer: (b) to store data

---

Question 8.

Software package is a

- (a) Machine
- (b) Programme
- (c) Set of standard programmes

▼ [Answer](#)

Answer: (c) Set of standard programmes

---

Question 9.

Which of the following is used as hardware?

- (a) Spreadsheet
- (b) Database
- (c) None

▼ [Answer](#)

Answer: (c) None

---

Question 10.

MICR is basically

- (a) Output Device
- (b) Storage Device
- (c) Input Device

▼ [Answer](#)

Answer: (c) Input Device

---

[Fill in the blanks with suitable word or words](#)

Question 1.

CPU is said to be the ..... of a computer.

▼ Answer

Answer: brain

---

Question 2.

Accounting Information System processes the data and transforms it into .....

▼ Answer

Answer: information

---

Question 3.

The function of Accounting Software is to perform .....

▼ Answer

Answer: accounting

---

Question 4.

Accounting softwares may be classified into (a) readymade software, (b) and (c) .....

▼ Answer

Answer: customised and tailor-made softwares

---

Question 5.

Computers are dumb devices with ..... Intelligence Quotient.

▼ Answer

Answer: Zero

---

Question 6.

Hardware of computer consists of ..... components such as keyboard, mouse, monitor and processor.

▼ Answer

Answer: physical

---

Question 7.

The people who write programmes to implement the data processing system design are known as .....

▼ Answer

Answer: programmers

---

Question 8.

The ..... means a series of operations in a certain order or manner to achieve desired results.

▼ Answer

Answer: procedure

---

Question 9.

The report on cash position, to be submitted by the Head of Finance & Accounts Department is an example of ..... Report.

▼ [Answer](#)

Answer: Responsibility

---

Question 10.

An example of Summary Reports is .....

▼ [Answer](#)

Answer: Profit & Loss Account

---

Question 11.

..... and ..... are the criterion to be fulfilled by every accounting report.

▼ [Answer](#)

Answer: Relevance and Timelines

---

Question 12.

..... software are a set of programmes which create and control a connection between a computer and a server to communicate and sharing of resources.

▼ [Answer](#)

Answer: Connectivity

---

[State whether each of the following statement is 'True' or 'False'](#)

Question 1.

Computer is like an electronic calculator.

▼ [Answer](#)

Answer: False

---

Question 2.

Printer is used to store data.

▼ [Answer](#)

Answer: False

---

Question 3.

Computer can receive information only through terminals.

▼ [Answer](#)

Answer: True

---

Question 4.

Printer is an input device.

▼ [Answer](#)

Answer: False

---

Question 5.

Memory is like a store house of the computer.

▼ [Answer](#)

Answer: True

---

Question 6.

Computer is an automation tool.

▼ [Answer](#)

Answer: True

---

Question 7.

Advent of computer have complicated the accounting functions.

▼ [Answer](#)

Answer: False

---

Question 8.

Computer machine is popularly called as software.

▼ [Answer](#)

Answer: False

---

Question 9.

The Central Processing Unit consists of control unit, arithmetic logic unit and memory unit.

▼ [Answer](#)

Answer: True

---

Question 10.

Keyboard is the most used piece of hardware in the input phase of a computer-based information system.

▼ [Answer](#)

Answer: True

---

Question 11.

In tire output phase of a computer-based information system, information is produced in hard copy and/or soft copy.

▼ [Answer](#)

Answer: True

---

Question 12.

Information is the product of data processing.

▼ Answer

Answer: True

---

Question 13.

Data items grasped together for storage purpose are called a record.

▼ Answer

Answer: True

---

Question 14.

AIS is the sub-system of MIS.

▼ Answer

Answer: True

---

Question 15.

Computer has zero IQ.

▼ Answer

Answer: True

---

Match the following

Column A	Column B
(i) Operating Software	(a) Monitor
(ii) Output Device	(b) Dot Matrix Printer
(iii) Secondary Storage Device	(c) Keyboard
(iv) Input Device	(d) Pen Drive
(v) AIS	(e) RAM
(vi) Printer	(f) MS-DOS
(vii) Memory	(g) Accounting Information Systems
(viii) Capabilities of Computer	(h) Management Information Systems
(ix) Element of Computer	(i) connectivity
(x) MIS	(j) Accuracy

▼ Answer

Answer:

Column A	Column B
(i) Operating Software	(f) MS-DOS
(ii) Output Device	(a) Monitor
(iii) Secondary Storage Device	(d) Pen Drive
(iv) Input Device	(c) Keyboard
(v) AIS	(g) Accounting Information Systems
(vi) Printer	(b) Dot Matrix Printer
(vii) Memory	(e) RAM

(viii) Capabilities of Computer	(j) Accuracy
(ix) Element of Computer	(i) connectivity
(x) MIS	(h) Management Information Systems
