

## A Visit to an Exhibition

---

The National Industrial Exhibition held in the National Park — organized by the Central Government — Opened by the Prime Minister — elaborate arrangements for visitors as well as exhibitors — hundreds of stalls — all beautifully and tastefully decorated — stall-holders from all parts of the country — varieties of industrial products exhibited — shawls, saris, things made of ivory, leather goods, rugs, blankets, pottery, rubber articles, hosiery, cutlery, surgical instruments, tractors, perambulators, cycles, radio sets, fountain-pens, and thousands of other things manufactured in our country were exhibited — the whole place brightly illuminated at night various amusements and entertainments also provided — one could spend hours and hours without getting tired — an excellent means of giving a fillip to national-industries — provided great instruction with amusement.
