

CELL MEMBRANE

(BARRIER FOR CELL & meant for transportation inside & outside the cell)

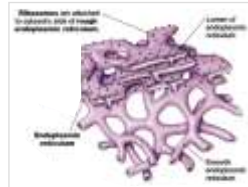

Cell wall (rigid) (only in plants) | Plasma membrane (fluid mosaic model)

Plastids (kitchen) (Only in Plants)

Mitochondria (Power house)

Energy ATP

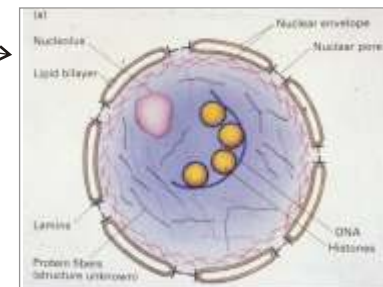

PROTOPLASM

CYTOPLASM

NUCLEUS

(HEAD QUARTER)

Chromatin — Cell division
Nucleolus

Cytosol

Cell Organelles

Double Membranous

Non Membranous

Single membranous

Ribosome

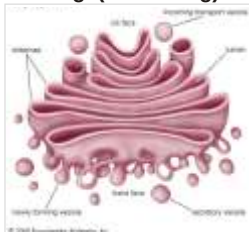

Protein synthesis

ER (Transportation)

Smooth ER

Rough ER (Protein factors)

Golgi (Trafficking)

Vacuole (Maintains Osmoregulation of cell)

Lysosome (Suicidal Bags) or (waste disposable system)

Contain Hydrolytic enzymes
