Section III

1. 'The total number of books in a library was 7500 in 1990. It increased by 8% in 1991 and further increased by 6% in 1992. The number of books in the English section was 4000 in 1990 and it increased by 10% in 1991 as compared to. 1990. The number of books in the Hindi section increased by 5% in 1992 as compared to 1991. In the English section, there were 1200, 1400 and 1550 text books during the years 1990, 1991 and 1992, respectively, while in the Hindi section, the number of general books (non-text books) were 2900, 3050 and 3125 respectively, during the three years.' Represent the above information in a tabular form. Also calculate the percentage increase in the number of books in the library in 1992 as compared to 1990.12

2. Answer the following questions

- a. The following table shows the investment on different heads under a five-year plan. Represent the data by a pie-diagram. The figures for relative percentages and corresponding angles must be shown in a tabular form. 8

Item	Agriculture	Major irrigation	Power	Industries	Transport	Social Services
Investment (Rs. Crores)	Investment 2280	Investment 648	Investment 1968	Investment 2940	Investment 1656	Investment 2508

- b. In a locality actually invaded by cholera, 70% inhabitants were attacked and 80% had been inoculated. What is the minimum percentage of the inoculated who had been attacked? Give reasons. 4

3. Answer the following questions

- a. Mention, in each case, the most appropriate diagram to represent, the following data:
 - i. distribution of the number of candidates according to the number of marks scored by each at an examination.
 - ii. total value of a country's exports and imports during the years 1985 to 1994.

iii. annual turnover of a manufacturing company during ten years

iv. distribution of actual outlay in the different public sectors during the last five-year plan 4

b. The following table gives the distribution of life-times of 400 electric bulbs

Life- time (in hours)	Range 300 – 399	Range 400 – 499	Range 500 – 599	Range 600 – 699	Range 700 – 799	Range 800 – 899	Range 900 – 999	Range 1000 – 1099	Range 1100 – 1199
Number of bulbs	Bulbs = 14	Bulbs = 46	Bulbs = 58	Bulbs = 76	Bulbs = 68	Bulbs = 62	Bulbs = 48	Bulbs = 22	Bulbs = 6

i. Find: The percentage of bulbs whose life-times are at least 500 but less than 1000 hours

ii. Find: The percentage of bulbs with life-times of at least 900 hours (10).

4. Answer the following questions

a. State whether The following statements are true or false. Give reasons for your answer. 6.
Answer the following questions

i. In a mechanical engineering class, 80% male students completed the course in due time of four years whereas 100% female students did the same Therefore, the performance of female students is generally better than male students.

ii. Two students got the following marks in three examinations: Student A: 60/100 72/80 35/50 Student B: 48/80 108/120 105/150 It is claimed that B has better performance than A.

iii. The salary of a person is first increased by 18% and then decreased by 5%. His net increase is 12.1%. 6

b. An investor buys Rs. 2400 worth of shares of a company each month. During the first six months, he bought the shares at a price of Rs. 20, Rs. 24, Rs. 30, Rs. 40, Rs. 48 and Rs. 60 per share. After six months, what is the average price per share paid by him? 6
