ENVIRONMENTAL STUDIES

TEXT CUM WORK BOOK

(REVISED)

ENGLISH MEDIUM

FIRST STANDARD

KARNATAKA TEXT BOOK SOCIETY

100 Feet Ring Road, Banashankari 3rd Stage,
Bengaluru-85.

Preface

The Textbook Society, Karnataka has been engaged in producing new textbooks according to the new syllabi prepared which in turn are designed based on NCF - 2005, since June 2010. Textbooks are prepared in 12 languages; seven of them serve as the media of instruction. From standard 1 to 4 there is the EVS, Mathematics and 5th to 10th there are three core subjects namely mathematics, science and social science.

NCF - 2005 has a number of special features and they are :

- connecting knowledge to life activities
- learning to shift from rote methods
- enriching the curriculum beyond textbooks
- learning experiences for the construction of knowledge
- making examinations flexible and integrating them with class room experiences
- caring concerns within the democratic policy of the country
- making education relevant to the present and future needs
- softening the subject boundaries, integrated knowledge and the joy of learning
- the child is the constructor of knowledge.

The new books are produced based on three fundamental approaches namely, Constructive Approach, Spiral Approach and Integrated Approach.

The learner is encouraged to think, engage in activities, master skills and competencies. The materials presented in these books are integrated with values. The new books are not examination oriented in their nature. On the other hand they help the learner in the all round development of his/her personality, thus help him/her become a healthy member of a healthy society and a productive citizen of this great country, India.

Young learners in their initial stages of learning i.e., between the ages of 5 and 10, acquire most of the concepts which they need in consolidating learning in later stages. If this learning is properly planned and well executed in the class room, children may find learning easy and enjoyable.

Based on these principles, in the early stages from class 1 to 5, the following subject areas have been introduced - Mother tongue, state language, English as a practice language, mathematics and environmental studies. Environmental studies include science and social science related to their daily life experiences, information about their environment, society, country, their duties and rights. These topics are presented through interesting situations and activities. Opportunities have been provided for self learning and creativity. In this stage importance is given to children sitting in pairs and groups and exchange their experiences. The efforts have been made to make illustrations colourful, attractive and meaningful. Teachers are expected to make use of these and help children learn meaningfully and with pleasure. The textbooks aim at making learning interesting, enjoyable and satisfying.

The textbook Society expresses grateful thanks to the chairpersons, writers, scrutinisers, artists, staff of DIETs and CTEs and the members of the Editorial Board and printers in helping the Text Book Society in producing these textbooks.

About the Book

National Curriculum Framework (NCF-2005) developed by the National Council of Educational Research and Training (NCERT), has set the guidelines for developing syllabi, textbooks and teaching practices in the formal school education programmes in the country, considering the new challenges that humankind is likely to face in the years to come.

We have attempted to follow the five guiding principles on which NCF 2005 is based, while adopting the framework in the textbooks of classes 1 and 2 for the State of Karnataka. We have tried integrating the science and social science concepts by softening the subject boundaries in these textbooks. The idea is that the children should view the natural and the social environments in a holistic manner from the beginning of school education. We have included a wide range of topics from family to plants and animals to festivals on the lines of the NCF 2005 guidelines.

While designing these textbooks titled **Environmental Studies**, EVS in short, we have taken into account the socio-economic, environmental and cultural aspects of the State for easy connect and better understanding. Since the children are beginners in the school system, we have used illustrations heavily in these books for easy communication. We also have introduced simple activities such as observation, keeping the level of children in mind, to engage them in learning process and make the learning more participative. The idea is also to stimulate children to enquiry-based learning. Books are designed with the objectives of familiarizing children with their surroundings/local knowledge and introducing some basic concepts of their natural and social environment so that they start appreciating the environment they are living in and every component that comes with it. We have tried our best to make these books gender neutral in terms of language and presentation of concepts. At the beginning of every lesson, we have given the competencies that the children should develop after each lesson, to help teachers facilitate the learning process.

While the thought provoking para of Rabindranath Tagore from 'Civilization and Progress', which NCF-2005 opens with, is indeed inspiring for every teacher to search and adopt new and innovative teaching-learning approaches. We welcome comments and suggestions from the teachers, parents and public for further refinement.

Environment Education is Education of the Environment, through the Environment and for the Environment.

About the Revision of Textbooks

Honourable Chief Minister Sri Siddaramaiah who is also the Finance Minister of Karnataka, in his response to the public opinion about the new textbooks from standard I to X, announced, in his 2014-15 budget speech of constituting an expert-committee, to look into the matter. He also spoke of the basic expectations there in, which the textbook experts should follow: “The textbooks should aim at inculcating social equality, moral values, development of personality, scientific temper, critical acumen, secularism and the sense of national commitment”, he said.

Later, for the revision of the textbooks from class I to X, the Department of Education constituted twenty seven committees and passed an order on 24-11-2014. The committees so constituted were subject and class-wise and were in accordance with the standards prescribed. Teachers who are experts in matters of subjects and syllabi were in the committees.

There were already many complaints, and analyses about the textbooks. So, a freehand was given in the order dated 24-11-2014 to the responsible committees to examine and review text and even to prepare new text and revise if necessary. Eventually, a new order was passed on 19-9-2015 which also gave freedom even to re-write the textbooks if necessary. In the same order, it was said that the completely revised textbooks could be put to force from 2017-18 instead of 2016-17.

Many self inspired individuals and institutions, listing out the wrong information and mistakes there in the text, had send them to the Education Minister and to the Textbook Society. They were rectified. Before rectification we had exchanged ideas by arranging debates. Discussions had taken place with Primary and Secondary Education Teachers’ Associations. Questionnaires were administered among teachers to pool up opinions. Separate meetings were held with teachers, subject inspectors and DIET Principals. Analytical opinions had been collected. To the subject experts of science, social science, mathematics and languages, textbooks were sent in advance and later meetings were held for discussions. Women associations and science related organisation were also invited for discussions. Thus, on the basis of all inputs received from various sources, the textbooks have been revised where ever necessary.

Another important aspect has to be shared here. We constituted three expert committees. They were constituted to make suggestions after making a comparative study of the texts of science, mathematics and social science subjects of central schools (NCERT), along with state textbooks. Thus, the state text books have been enriched based on the comparative analysis and suggestions made by the experts. The state textbooks have been guarded not to go lower in standards than the textbooks of central school. Besides, these textbooks have been examined along side with the textbooks of Andhra Pradesh, Kerala, Tamil Nadu and Maharashtra states.

Another clarification has to be given here. Whatever we have done in the committees is only revision, it is not the total preparation of the textbooks. Therefore, the structure of the already prepared textbooks have in no way been affected or distorted. They have only been revised in the background of gender equality, regional representation, national integrity, equality and social harmony. While doing so, the curriculum frames of both central and state have not been transgressed. Besides, the aspirations of the constitution are incorporated carefully. Further, the reviews of the committees were once given to higher expert committees for examination and their opinions have been inculcated into the textbooks.

Finally, we express our grateful thanks to those who strived in all those 27 committees with complete dedication and also to those who served in higher committees. At the same time, we thank all the supervising officers of the Textbook Society who sincerely worked hard in forming the committees and managed to see the task reach its logical completion. We thank all the members of the staff who co-operated in this venture. Our thanks are also due to the subject experts and to the associations who gave valuable suggestions.

12.	Play the game	75 – 82
13.	I need these	83 – 90
14.	Heavenly friends	91 – 97
15.	Around us	98 – 103

LESSON – 1

ANIMALS AROUND US

After studying this lesson you,

- identify common animals around you.

If you have seen the animals that are in the above picture put (✓) mark in the given box.

Can you find these animals in your locality? If yes, put (✓) mark in the box.

☐☐☐☐☐☐☐☐

Name some other animals that you find in your locality.

Name these animals.

Match the pictures of the faces of the animals to their bodies correctly by drawing lines. Then name the animals. One is done for you.

Look at the pictures given below - Name the animals. Circle the animals you find in your house. Look at the example.

Sing and enjoy

Bow Bow says the dog

Meow, Meow says the cat

Cock-a-doodle-do says the cock

Croak, Croak says the frog

The sheep bleats

Quack, Quack says the duck

The lion roars

The elephant trumpets

The snake hisses

The cow moos

The sparrow says chirp chirp

Colour the given pictures.

Sing and enjoy

Naughty little monkey
Jumping up and down

Meow Meow says the pussy
He wants to boss around

Bow Bow doggie
Fit to guard the house

Caw Caw screaming crow
Fly Fly Fly away!

Imitate the movement of the animals given below :

cow, crow, frog, snake, rabbit.

Play the game.

Play this game with your friends.

Make two groups. Let one group make the sound of an animal and the other group name the animal. Let the game continue in the same manner.

LESSON – 2

PLANTS AROUND US

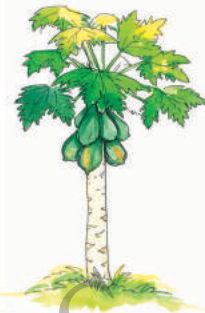

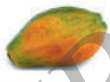

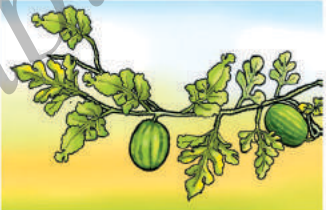

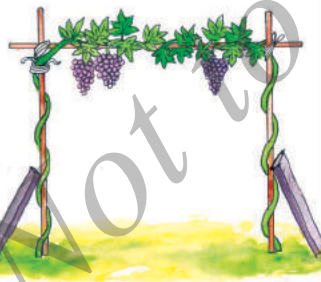

After studying this lesson you,

- identify the common plants around you.

Name these plants.

Do you have these plants in your locality? If yes, put (✓) mark in the box.

  <input data-bbox="349 637 500 700" type="checkbox"/>	  <input data-bbox="699 637 850 700" type="checkbox"/>	 <input data-bbox="1035 637 1186 700" type="checkbox"/>
 <input data-bbox="349 1064 500 1119" type="checkbox"/>	 <input data-bbox="692 1064 843 1119" type="checkbox"/>	  <input data-bbox="871 1064 1022 1119" type="checkbox"/>
  <input data-bbox="343 1483 493 1537" type="checkbox"/>	  <input data-bbox="521 1483 672 1537" type="checkbox"/>	 <input data-bbox="1035 1483 1186 1537" type="checkbox"/>

Tell your friends about the plants and trees you have seen.

Colour these pictures and name them.

Match the plants with their fruits by drawing lines.

Have you seen these plants ? If yes, mark it with (✓)mark.

☐☐☐☐☐☐☐☐

Name the plants that you have seen around your house and school.

Colour the pictures given below. Ask and know their names.

LESSON – 3

WATER

After studying this lesson you,

- identify the use of water in daily life.

Salim is thirsty. He is drinking water.

Look at the pictures and say the story.

Why is the crow doing this?

You can see a plant drying up. But now, the plant looks so fresh. How?

Even plants, trees and animals need water like us.

What are the things you do at home using water? Put (✓) mark in the box for the picture to show them.

<p>①</p>  <div data-bbox="546 1246 669 1301" style="border: 1px solid black; width: 80px; height: 30px; margin-left: auto;"></div>	<p>②</p>  <div data-bbox="1056 1246 1179 1301" style="border: 1px solid black; width: 80px; height: 30px; margin-left: auto;"></div>
<p>③</p>  <div data-bbox="569 1565 692 1619" style="border: 1px solid black; width: 80px; height: 30px; margin-left: auto;"></div>	<p>④</p>  <div data-bbox="1056 1565 1179 1619" style="border: 1px solid black; width: 80px; height: 30px; margin-left: auto;"></div>

**Name the things you do using water in your school.
Look at the pictures given below. Say whereelse
we use water.**

From where do you get water for your house. Put (✓) mark in the picture given below.

How do we get water through taps? Ask elders to know.

Sing and enjoy

I need water, I need water
For drinking, cooking and bathing too.

I need water, I need water
For building, farming and sailing too.

I need water, I need water
For plants and animals, me and you.

Mime these actions

- | | |
|--------------------|------------------------|
| 1) drinking | 2) bathing |
| 3) washing face | 4) washing clothes |
| 5) rowing the boat | 6) dog drinking water |
| 7) flowing river | 8) watering the plants |

Play the game

Play the game 'In the pond and on the bank' with your friends.

All should stand in a circle. One participant should name a work we do everyday. If water is used to do that work, the children should jump inside the circle. If water is not used to do that work then, the children should jump out of the circle.

LESSON – 4

DELICIOUS FOOD

After studying this lesson you,

- know the food that is available in your locality.
- identify the food grains available in your locality.
- identify the food which you eat.

Are there food items that you have eaten in the pictures given below ? If yes, put (✓) mark in the box.

 <input type="checkbox"/>	 <input type="checkbox"/>	 <input type="checkbox"/>	 <input type="checkbox"/>
 <input type="checkbox"/>	 <input type="checkbox"/>	 <input type="checkbox"/>	 <input type="checkbox"/>
 <input type="checkbox"/>	 <input type="checkbox"/>	 <input type="checkbox"/>	 <input type="checkbox"/>

Which is your favourite dish?

Look at the pictures. Put (✓) mark in the space provided if you know the food.

			
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
			
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
			
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
			
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
			
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Name the food grains that are grown and other food items available in your locality.

The outer circle consists of food we eat. The inner circle consists of the items used to prepare the food. Match them by drawing lines.

Name the dishes prepared in your house on the days of festivals.

Look at the pictures given below. Put ☐ mark for the food that could be eaten raw and ☐ mark for the food that has to be cooked and eaten in the boxes provided.

 <input type="checkbox"/>	 <input type="checkbox"/>	 <input type="checkbox"/>
 <input type="checkbox"/>	 <input type="checkbox"/>	 <input type="checkbox"/>
 <input type="checkbox"/>	 <input type="checkbox"/>	 <input type="checkbox"/>

Play the game.

Stand in a circle with your friends. Now one of you tell the name of your favourite dish and another will tell the ingredients required to prepare it. Let the game continue in this manner. If you do not know the ingredients ask your friends or elders at home and know.

Put (✓) mark for your favourite dish. Tell why that dish is your favourite.

Put (✓) mark for your favourite fruit. Tell why you like it.

Put (✓) mark for the vegetable you like. Tell why you like it.

Do you have plants of vegetables and fruits in your house? If yes, name them.

Colour the pictures given below.

**Name the different dishes prepared in your house.
Ask elders at home and know the ingredients/things
used to prepare them.**

**Identify the food grains your teacher shows.
(Teacher should show rice, dal, groundnut etc.,)**

Sing and enjoy

Veggies, Veggies, Veggies

Types and Types of Veggies;

Like a finger is ladyfinger

Like a stick is drumstick.

Like a snake is snakegourd,

Tasting bitter is bittergourd.

Types and Types of Veggies,

Tomatoes make your cheek go red,

Carrots make your jump ahead.

Greens make you very strong

Peas make you sing along

Veggies, Veggies, Veggies

Types and types of veggies.

(Sing and enact this song and continue the song
adding the vegetables that you know)

LESSON – 5

DO WE NEED FOOD?

After studying this lesson you,

- know the need for food.

Sing and enjoy

I found him sitting on the couch,
before I went to bed

He seemed so tired without food
And this is what I said,

“Go friend eat your dinner right
And see you’ll sure feel bright”.

He then ate rice and dal and grains.
Which made him bright and strong

Sing and enjoy

Fruits, veggies, milk and cheese

Eat them everyday!

It’s good for health

And makes you fit.

observe these pictures.

We need food to be healthy and strong.

We need food for the growth of our body.

We get energy to work from food

Do you know why we need food?

LESSON – 6

MY HOUSE

After studying this lesson you,

- know about your house.
- estimate the distance of some places in your locality as very near, far and very far by keeping your house as the base.

This is Radha's house. Look at the picture carefully.

Now answer the following questions.

- Name the members of Radha's house.
- What are they doing?

- How many windows and doors are there in Radha's house?
- Who are the members in your family?
- Do you have domestic animals in your house.
- How many windows and doors are there in your house?

This is Raja's house. Observe the picture and answer the questions given.

- What is very near to Raja's house?
- What is near Raja's house?
- Where is the school?
- What is very far from Raja's house?

Where are the following places? Put (✓) mark in the correct box.

Sl. No.	Place	very near	near	far	very far
1.	friend's house				
2.	hand pump/street tap				
3.	school				
4.	shop				
5.	anganawadi				
6.	well				
7.	bus station				
8.	office / hospital				

Answer

- What is very near to your house ?
- What is near your house ?
- What is far from your house ?
- What is very far from your house ?
- What is near your school ?
- What is far from your school ?

Colour this picture.

Sing and enjoy

My house is white - a lovely house,
with doors and windows green;
Lots of trees - big and small
To shade me from the sun.
I laugh and play the whole day long,
A happy child I am.

LESSON -7

CLEAN HABITS

After studying this lesson you,

- identify the parts of the body
- understand the importance of cleanliness and habits of cleanliness

Write the correct part of the body in the box.

Identify these parts in your body.

**Who am I ?
How am I
helpful to you ?**

Match the parts of the body with their work by drawing lines.

Tell the work that is in progress in the pictures given below. Which part of your body is used to do these works?

Look at your hand. Count the number of fingers in your hand.

Observe whether all the fingers are of the same size.

**Keep your left hand on the space provided below.
Keep your fingers apart. Draw a line along your fingers
with a pencil.**

Observe these pictures.

Answer these questions.

- What do you use to brush your teeth?
- What do you use to cut your nails?
- What do you do before having your breakfast?
- What will you do as soon as you come home from school?

**There are some objects in the picture given below.
Draw a circle around the objects you use.**

Mime these actions.

- | | |
|------------------------|---------------------------------|
| 1. brushing your teeth | 2. combing hair |
| 3. bathing | 4. wiping the body |
| 5. washing face | 6. cutting nails/trimming nails |
| 7. washing legs | 8. washing hands |
| 9. praying | |

LESSON – 8

SAFETY AND DISCIPLINE

After studying this lesson you,

- know about personal safety.
- wait in a queue.
- identify the facilities that caters to your needs.

Observe these pictures.

Answer.

- Do you see danger in the above pictures?
What are they?
- Have you ever done this before?
- Have you ever faced any danger?

Observe your elders at work. Imitate them. Follow the advice of your elders and teachers. Then you will be safe.

Observe the picture given below.

Tell, what you see in the picture ?

What do you learn from this picture ?

Put (✓) mark if you feel it is correct and (X) mark if you feel it is wrong.

Give reasons for your marking (✓) and (X) .

Read the statements given below. Put (✓) mark if the statement is correct or (X) mark if it is a wrong statement.

1. Standing in a queue is a waste of time. ☐
2. All will get sufficient water if we wait for our turn. ☐
3. There will be no problems if we follow the queue. ☐
4. It is good if you stand in a queue to get into the bus. ☐

- Why do you we need street lights ?
- Why do we need schools ?
- What is the use of bus station?
- Why do you go to a hospital ?

These are the facilities we need. Name the facilities available in your locality. Observe why people in your locality use these facilities.

LESSON – 9

TRANSPORTATION

After studying this lesson you,

- identify the local means of transport.

Name the vehicles given in the following pictures.

Put (✓) mark on the vehicles you see in your locality.

Name the vehicles in which you have travelled.

**Look at these pictures, which is your favourite vehicle?
Why?**

Play the game.

- Move around making sounds like these vehicles- train, bicycle, scooter, bus.
- Play a train game with your friends.
- Prepare a paper boat and allow it to float on water.

Learn to make a paper boat.

Colour these pictures.

Where do these vehicles move? Match by drawing lines.

Sing and enjoy

The horn of the bus goes beep beep beep

The bell of the cycle goes trin trin trin

The sound of the auto goes pom pom pom

The engine of the train says puff puff puff.

The wings of the plane files swish swish

The bells of the cart sings jingle, jingle, jingle

The row of the boat goes splash splash splash

The wheels of the scooter goes zoom zoom zoom.

LESSON – 10

I AND MY FAMILY

After studying this lesson you,

- know the relationship with the members of the family.
- realise the co-operation of the members of the family in doing the house hold work.
- identify the family and friends around.

Look at the picture.

This is the picture of Sunil's family. All the members in his family are here. Name the members in this picture.

Observe the pictures given below. Put (✓) mark in the box provided if you have them in your family.

☐☐☐☐☐☐☐☐

Name the other members of your family apart from the above.

Identify and tell the people present in the pictures given below.

Sing and enjoy

Sing to the tune.

Father, mother, brother and sister
I love you all and I need you too,
All together we sit to eat,
We sit to talk and play the ball.

Father's father is my grandpa,
Mother's father too my grandpa.
Father's mother is my grandma,
Mother's mother too my grandma.

Answer.

- What is the relationship between you and your mother's father?
- How is your father's mother related to you?
- What is the relationship between you and your mother's mother?
- How is your father's father related to you?

Look at these pictures. Tell who helps you do these works everyday?

Look at the pictures. Match the works with the person helping by drawing lines.

Look at these pictures. What work is in progress in these picture. Tell, who is helping whom?

Look at these pictures. Put (✓) mark for the work in which you help.

Look at these pictures. Draw a line to the work you do. One is done for you.

Put (✓) mark on the work you do in school.

With whom do you eat in school ?

Name the friends near your house.

Sing and enjoy

We are young,
We are friends,
We go to school together.
We learn together,
We play together,
We work together,
And love one another.

LESSON – 11

NEIGHBOURHOOD

After studying this lesson you,

- identify the work that takes place at home and in the neighbourhood.
- understand the co-operation of the neighbours.

You already know the work that you do at home. Now look at these pictures. Answer the questions given.

What is in front of the house?

What's happening here?

How is the place near the tap?

What are they doing?

Why did Rama call everyone?

What are they doing?

- Name the games you play with your neighbours.
- Sing songs which you sing with your neighbours.

What are the children doing here? Put (✓) mark to the work that you do.

What are the elders doing?

LESSON – 12

PLAY THE GAME

After studying this lesson you,

- name the different games.

Observe the pictures given below. Put (✓) mark in the box on the games you play.

Pictures of some games have been given here. Name these games.

Here are some pictures of things used to play a game. Name the game in which you use these things.

Here are some pictures of games where we use small balls or big balls.

Name some other games you play using the balls.

Sing and enjoy

Seven days is a week,
And Sunday is a holiday.
On a Monday, I catch a ball,
On a Tuesday, I hit a goal.
I swing up high on a Wednesday,
I scream Lagori on a Thursday.
On a Friday, I basket the ball
On a Saturday, I play kabaddi.
Only seven days is a week,
Not enough for me to play.

Colour these pictures.

LESSON – 13

I NEED THESE

After studying this lesson you,

- make a list of basic needs.

What are the children doing in the pictures?

Here are a few pictures of some things. Draw a line on the things that are very essential for you.

**I am hungry.
Can we have
food ?**

**Oh! I am thirsty
I need water to
drink.**

**It started raining.
Let's go home.**

**I need clothes to
protect me from
the heat of the
sun, cold, rain
and breeze.**

**We need air to
breathe also.
Don't we ?**

**All need air, water, clothes, house.
These are our basic needs.**

Animals also need air, water and food.

Plants also need air, water and food.

Look at the lines drawn in the boxes. Draw a picture of a house accordingly in the empty boxes and colour it.

Look at the pictures and put (✓) mark on the correct answer in the boxes.

The water I drink

☐☐

The fruits I eat

☐☐

The house I live

☐☐

The clothes I wear

☐☐

LESSON – 14

HEAVENLY FRIENDS

After studying this lesson you,

- identify the sun, the moon and the stars.

Have you seen the sky? What do you see in the sky?

Look at the pictures and put (✓) mark in the box on the things which you see in the sky.

	<input type="checkbox"/>		<input type="checkbox"/>
	<input type="checkbox"/>		<input type="checkbox"/>
	<input type="checkbox"/>		<input type="checkbox"/>

Tell your friends the things you see in the sky during the day and during the night.

Look at the picture and say.

Now it is day. What do you see in the sky?

Tell what happens when the sun sets?

What do you see in the sky during night?

The stars are very far away from the earth. So they look like dots.

Match the pictures with the words.

moon

stars

sun

Play the game.

- Draw a circle in the classroom and draw the sun, moon and stars as shown in the pictures.
- Stand around the circle with your friends. Start moving around the circle.
- Let one blow the whistle. When the sound of the whistle is heard let them stop moving. Let them see where they are standing and name the heavenly friend.

Sing and enjoy

Here comes the sun
With him he brings some fun.
The day now looks so bright and gay;
We only want to sing and play.
I simply love to count the stars,
And chant a song for long long hours.

Twinkle twinkle little star;
How I wonder what you are;
Up above the world so high,
like a diamond in the sky.

Do this.

- Count the stars in the sky during night with your friends.
- With the help of your teacher or elders know the different names of the sun, the moon and the stars.

Join the dots and Colour this.

Colour the pictures.

LESSON – 15

AROUND US

After studying this lesson you,

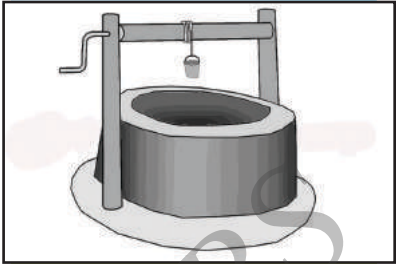

- get information about your local immediate environment.

Look at the pictures given below. Name them. you may seek help from your teachers/elders.

Look at the pictures given below. Do you have these in your locality? If yes, put (✓) mark and if no, put (X) mark.

Sl. No.	In your locality	Yes	No

9

Discuss with your teacher or elders about the things around your locality.

Colour the picture given below and enjoy.

Sing and enjoy

Come dear brothers, Come dear sisters;
Let us sing and play.
The world around is so lovely,
Let us see and learn.

Tell me what you see around
Cycle, auto, bus that sounds:
Picking me and picking you
To take us off to school I know.

I can hear the sounds of frogs and ducks,
And see a lot of fish and plants,
I also see some people,
Swimming in the pond nearby.

When I look around the place -
I see lakes, hills and trees surround
And the forests with the trees.
Chirping birds and lovely green.

The world around me, world around me;
Is so lovely, Is so lovely.

Visit the place around your locality with your teacher or elders. Tell your friends the things you saw there.
