

Paragraph

CORRUPTION

Corruption is the biggest curse to our society. Corruption has taken over all the status of our society. It is present in schools, in colleges, in work places and even with medical facility providers. The citizens have become blind with the glitter of gold. The moral and ethical values are eroding. The species called honesty is getting extinct. Corruption can be eradicated from our society if we open our eyes towards the future and became selfless.

A DAY IN A JUNGLE (CLOSE TO NATURE)

Being face to face with nature is really a very pleasant experience of life. It thrills us. Fills our heart with happiness. Me and my friends were going to a picnic place, but in between the bus got out of order. We were forced to leave the bus. We saw all around us was a very dense jungle. We all went there. That was a great experience, to our amazement we saw all the animals were busy in their activities. The rabbit was searching for carrot. Butterflies were fly over the flowers. Cows, buffalos, goats, etc., were grazing the grass, deer were playing. Birds were chirping. Elephants were resting. One of my friends took pictures of all these. This experience was like a dream come true.

A REAL ACCIDENT

One day I was travelling from Ghaziabad to Delhi by bus. Everything was very peaceful. The weather was cool and it was showering a little. So it was giving the feel of winter. I was just looking out of the window, what I saw was very shocking. A very fast running cab struck a road side pole. The cab fully got destroyed. The cab caught fire and within few minutes it blasted like a bomb. People gathered there to save the life of driver because the cab. Otherwise the scene might have been very worse. Fortunately before the collision of cab with pole, driver fell down from the cab. His life was saved. This filled the heart of all other people with fear, and all were thanking God for saving his life.

FILM FESTIVAL

Films are the mirror of the society. What is happening around us, they try to show it to us so that we can understand. Film festivals are organised every year so that the best work can be appraised. Best actors, actresses could be given honour. Film festival gives recognition to all, whosoever are associated with the film. It motivates who are associated with the film industry. Film festival is a common platform where all the members of film industry get together and share their thoughts and views. Rewards really boost the career. It gives new height to the associated members of the nominated movie. Let us say if Katrina Kaif gets best actress award for any of her movie, then she will be very busy. Film festival is celebrated in a very cheerful manner.
