

Importance of School Magazine

The school magazine is a historical document of the growth of the school. It informs the future generation of students about the traditions built up of their schools. This valuable publication is the opportunity that students require to show their creative talents.

Along with academic studies, students are encouraged in games and athletics, art and craft, science clubs, dramatics and various other activities. These make the years in school interesting and worth remembering. But intellectual activities like debates, elocution and essay-writing competitions are rarely found.

Writing does not come from experience alone. It also requires a lot of reading. The literary and intellectual abilities of the students compel him to read books on a variety of subjects. Such students are quick to realize the value of their time and learning. They do not waste their efforts in futile activities. Not all students can be good writers but those who have the ability to form opinions can develop their power of expression by writing for their school magazine.

The school is the window to the activities of the school. Proper initiative by the teachers can help in improving their views and expressions of the students which in turn will take an active part in the affairs of the school. Inter-class and inter-school competitions can provide a good practice for student publications.

Unfortunately, only a few schools' countries bring out their school's journals. Every school must consider the importance of school magazine for the benefit of its students.
