

Chapter - 12

Applications of Computers in Accounting

Section-A: One Mark Questions:

I: Fill in the blanks:-

1. The different parts of computerized accounting system are input, processing and _____.
2. _____ accounting is used for calculation of wages, salaries, Bonus, etc.
3. _____ unit housed in the central processing unit and perform the calculation at high speed.
4. Language syntax is checked by software called as _____
5. _____ is the brain of the computer.
6. The people who writes programmes to implement the data processing system design are called as _____.
7. The functional components of computer system consists of Input unit, CPU and _____.

II: Multiple Choice Questions:-

- Which of the following is not a feature of computer?
 - a) Speed
 - b) Accuracy
 - c) Memory
 - d) Intelligence
- Which of the following is not a basic component in an electronic digital Computer?
 - a) Control unit
 - b) Cost Unit
 - c) Input Unit
 - d) Storage Unit
- Which one of the following is not a type of software used in the computer Machines?
 - a) Input software
 - b) Application software
 - c) Operating system
 - d) Connectivity software
- Which of the following is not a human data entry device?
 - a) Key board
 - b) Sound card
 - c) Touch screen
 - d) Mouse
- Which of the following is not an input device used in digital computers?
 - a) Key board
 - b) Mouse
 - c) Modern
 - d) Touch pad

6. Computers do not play important role in:
- | | |
|-----------------------------------|------------------------|
| a) Recording business transaction | b) Pay roll accounting |
| c) Locating thefts of cash | d) Production control |
7. Which of the following is not a basic function of accounting information system?
- | | |
|--------------------------|----------------------|
| a) Software preparation | b) Data manipulation |
| c) Documents preparation | d) Data gathering |

III: True or False:-

1. Computer processes raw data and converts it into meaningful information.
2. Like human beings, a computer can feel tiredness and lack of concentration.
3. Computer systems are widely accepted due to their exceptional reliability.
4. Computers maintain the record of personal life of an employee in payroll accounting.
5. Control unit performs the calculations at high speed.
6. The different softwares are used for performing similar works.

IV: Very Short Answer Questions:-

1. State any one element of computer.
2. Write any one type of software.
3. Write any one components of computer.
4. Name any one feature of computer system.
5. Expand CPU.
6. Expand TPS.
7. Expand PIN.
8. Expand MIS.
9. Expand AIS.
10. State any one feature of computerised accounting system.
11. Write any one type of MIS report.

Section- B: Short Answer Questions for Two Marks:-

1. Give the meaning of computer.
2. State any two elements of computer.
3. State any two types of software.
4. State any two units of CPU.
5. State any two capabilities of computer system.
6. Write any two limitations of computer system.
7. Write any two features of computerised accounting system.
8. What is Management Information System (MIS)?
9. What is Accounting Information System (AIS)?
10. What do you mean by report?
11. State any two essential features of an accounting report.
12. State any two MIS reports.
