Both English trading company (1601) and French trading company (1653) arrived in India to take advantage of trading opportunities, but got involved in rivalries to establish political hegemony, which saw them engage in 3 carnatic wars from 1748-1762. Ultimately English company emerged as victors (Battle of Wandiwash - 1760).

Good factors leading to British success:-

① Financial - English company was a private ~~topp~~ company with active engagement of shareholders ; French were an state enterprise

- English company never ignored financial dimension in favour of territorial ~~expatia~~

aspirations, unlike French company - So, English co. had steady course of income.

② Political - Both England and France were engaged in ~~the~~ mutual historical rivalries, and Indian rivalry was an extension of that. (Austrian war of succession, Seven years war). England had no major revolutions since 1688 whereas glorious revolution during late 18th century was mockery entire policy of France.

French revolution

③ military - better organisation, fair recruitment, and weaponry of English. Ability of commanders such as Robert

Civil

④ ~~Her~~ Indian location - English company held important locations - Bombay, Calcutta, Madras - French few regions (Pondicherry).

This English ~~victory~~ victory ultimately meant, they were to be unchallenged masters of Indian subcontinent.

What were the causes of the Iranian Revolution of 1979? In what ways do the consequences of this revolution remain relevant even today? (Answer in 150 words) 10

Iran had been the sphere of influence of Russian and British colonial forces in the early 20th century. Mid 20th century saw emergence of super power rivalry of a different kind (US vs USSR). US implanted a puppet government in Iran with 'Shah' as the ruler.

Iranian Revolution of 1979 was to overthrow this government. The causes were:-

- ① Westernisation of Iranian society - modern reforms undertaken by Shah of Iran were seen as dangerous by traditional religious leaders.
- ② Foreign control of natural resources such as oil and natural gas were resented by Iranians.

③ Shia-Sunni divide - Iranians wanted to assert their shia identity.

④ US-USSR rivalry - mutual suspicion leading to constant interference in Iranian governance.

The revolution established an Islamic government - a semi democratic theocracy.

Present US-Iran tensions which subsided during 2015^{only} to resurface lately are a consequence of this revolution, where US does not see the Iranian government as conducive to US interests. The destabilisation in middle east with Iran-Israel, and Iran-GCC rivalries can also be traced to theocratic Shia rule in Iran.

Involvement of Western powers in foreign countries during colonial and cold war era continue to have repercussions till date.

Globalisation has led to increased flow of ideas, knowledge, technologies and enhanced trade in goods and services, among other things.

The bilateral exchange of these has impacted traditional Indian craft, literature and knowledge systems in unique ways.

Indigenous craft → Influx of Chinese and Korean silk (cheaper) → negatively

impacted traditional silk workers

~~crafts like~~ ~~canvases work~~ traditional

crafts such as wooden toys not in demand

→ demand for traditional bronze work

even globally

There are some examples of how globalisation has mostly negatively impacted indigenous

craft, but also has provided larger market to some of it.

Literary traditions

English literature has replaced some of traditional literature. At the same time, wide circulation of vernacular literature through internet. Still, most of the educated Indian youth now prefers English over vernacular due to better opportunities.

Traditional knowledge system - Internationali-

sation of Yoga, but decline of AYUSH system of medicine. Similarly in agriculture, food choices = ~~etc~~ etc there is large impact of western technology.

These need to be addressed

Thus, there is globalisation of culture associated with decline in traditional aspects of crafts and literature. The need is to provide support and employment opportunities to traditional craftsmen, indigenous knowledge system, and promotion of

According to Juvenile Justice Act, juvenile
are those below the age of 18 years.

Juvenile delinquency or crime by juveniles
are ~~is~~ witnessing a rising trend.

Factors that are responsible :-

- ① Social media, video games, breakdown of traditional family culture.
- ② Lack of value education - Youth find it difficult to shed patriarchal attitude and are unable to internalise equality of women
- ③ Failure of rule of law - easy availability of drugs, alcohol to underage population
- ④ Rampant poverty, unemployment, lack of opportunities - leading to frustration
- ⑤ Instability of education system to filter out anti-social elements

Supreme Court recently, refused to allow a juvenile delinquent to be tried as an adult and asked to focus of 'reformative justice' instead of retributive justice. (Under JJ act, juveniles of 16-18 yrs of age can be tried as adults for heinous crimes).

Significance of rehabilitative and reformative measures :-

- ① Giving the opportunity to get back into mainstream through education and skillings.
- ② provision of 'foster family' care to orphaned children.
- ③ rehabilitation of drug and alcohol addicts.

These measures can provide opportunities to juveniles to grow into well balanced and responsible adults.

India had traditionally depended on panchayats, community work and rulers for judicial system. Well organised judicial system based on rule of law was established by British - it treated all sections equally. (no caste based discrimination) and theoretically everyone had equal access.

In practice, however, it suffered from numerous drawbacks

- ① Europeanisation of judiciary
- ② Law developed in consultation with Hindu priests and Muslim Ulamas - sometimes different from reality
- ③ No separation of legislative power

in executive - especially under board

Burkha.

- ④ Exorbitant costs and complicated procedures - difficult for common people
- ⑤ Racial discrimination - European subjects treated differently
- ⑥ Lack of appellate provisions due to fewer courts.
- ⑦ Bureaucratic apathy, police insensitivity

- The uniform judicial system had indirect positive consequence of reducing entrenched caste based discrimination.
But even after blatant violation of law, summary evictions of common people had no result.

Princely states - British acquired territories by direct conquest (e.g. Bengal, Mysore) or by Diplomacy (e.g. Nizam tomorries, awadh). Some of them they administered directly → called British India. Others were called princely states.

- Pre 1857
- ① Conquests - Battle of Plassey - 1757
 1748-99 Anglo-Mysore war
- Anglo-Maratha war - 1775-1817
- ② Diplomacy - Subsidiary Rely fence (awadh)
 subsidiary alliance (nizam, mysore)
 doctrine of lapse
This policy led to discontent followed by 1857 revolt,

(Post 1857)

- Direct control by British crown
- Princely states brought under common authority - called Paramountcy.
- given certain freedom of administration but effectively under British control
- Policies by Viceroy Curzon - demand independence
- Butter Commission - ~~so~~

Freedom movement under Indian nationalists
tried to assimilate people from princely states. If they asked people to support only those rulers who worked for people's welfare.

The people of princely states became aware of happenings in other parts of British India - participated in non-cooperation and civil disobedience movement - simultaneous reform movements e.g. temple entry movement

by K. P. Kurava, K. Kelappan et.

- rules of Travancore allowed temple
entry in 1937

At the time of independence, India
had 565 princely states. Freedom movement
had assimilated people in Indian mainstream
by arousing nationalistic feeling which lead
to a unified India.

~~After~~
India-Pakistan war of 1971 led to creation of Bangladesh (previously east Pakistan) and surrender of 90,000 Pakistani soldiers.

Simla agreement was signed in 1972 to resolve the long standing border disputes and Indo-Pak issues. It recognised Line of control as the boundary between India-Pakistan.

It is considered as a lost opportunity by some because it failed to conclusively resolve border disputes as India had significant leverage at that time.

Internal migration in India is rising with intra state migration dominating especially rural - rural migration (nearly released 2011 census data).

|For Rural - Urban migration|

Push factors

- ① Land fragmentation, agricultural distress, vagaries of monsoon
- ② ~~stop~~ stagnant rural society and economy - caste based discrimination, stigma towards working women
- ③ lack of off-farm employment opportunities
- ④ poor facilities of housing, infrastructure, entertainment, cultural development.

Pull factors

- ① better opportunities for employment, children's education.
- ② anonymity

Urban transition

- ① Increasing Urbanisation - but mostly in an unplanned manner
- ② still only 30% urban (compared to 60-70% in Brazil, US)
- ③ development of slums, worsening of traffic, pollution
- ④ loss public space, rising urban disasters (floods, wall collapse etc.)
- ⑤ Internal migration is an essential part of any modern economy especially the urban transition. ~~cost of~~ Migrants provide a major work force being dynamic & flexible.
- ⑥ ~~Now~~ It is necessary to promote integration and sustainable urbanisation by providing adequate housing, infrastructure and opportunities.

Family planning entails providing awareness, contraception services etc to promote stabilisation in population growth.

India was one of the first countries to start family planning programmes. They have resulted in reduction of total fertility rate to 2.3 (replacement level is 2.1). But they have not performed as expected. (According to UN - India will be world's most populated nation by 2027).

~~Factors~~ Factors responsible for poor performance

- ① Unmet need of contraception - lack of availability, lack of awareness, less agency to women, persisting patriarchal attitudes

- ② Regional disparities - Bihar, UP, MP etc continue to have higher TFR.
- ③ Historical - aggressive strategies during emergency era - bad reputation to family planning
- ④ poor state of health care services - reports of death / disability after contraceptive surgeries (e.g. tubectomy deaths).
- ⑤ lack of funding - Only 1.4% GDP spent by public sector.

Various schemes such as RCH, RMEH, RHNC + A, NRHM etc aim to promote family planning services

- ① Better availability of OCPs, windows etc by ASHA, ANM etc.
- ② Awareness generation via NGOs, SHGs
- ③ Education and late marriage
- ④ promotion of vasectomy (currently)

only 21%, rest 98% tubectomy)

Intra family poverty is a concept where women and children can be more poor than adult males of the same family.

Social factors -

① Patriarchial attitude with women being valued less → lower emphasis on education (especially $2^\circ / 3^\circ$), low expenditure on health and lower life expectancy, e.g. women are last to eat in families (receive less nutrition e.g. milk/egg/pulse etc.)

② inhibition to development of agency
- lack of empowerment, unable to form groups with like minded women - lower participation in discussing matters about own lives - equally

due to early marriage, frequent pregnancies (e.g. decision regarding use of contraception).

Economic

- ① Agriculture - male migration - women farmers unable to access resources due to lack of ownership, skills - (in) non-women friendly mechanisation
- ② industry - women until jobs paid less (e.g. spinning by women vs weaving by men) - continue to be employed in low paying subsistence jobs - vicious cycle.
- ③ survival - lack of proper education, training, stereotyping of gender roles.
- ④ Declining labour force participation rate (only 22% vs 72% for men) due to rising crimes

Urgent to tackle this at ~~women~~
poverty alleviation of women has a
multiplier effect on broader society and
economy.

- ① Active ~~retention~~ increase in secondary / tertiary
education enrolment, skilling, training
 - ② Value education, awareness to tackle
attitudinal issues
 - ③ implementation of laws such as ~~for~~ provision
of sexual harassment at work act, maternity
benefit act
 - ④ proper technology - women friendly machines
via urban wing centres, credit, insurance
etc. extension br-
 - ⑤ empowerment of women enterprises
 - ⑥ promotion of self help groups.
- ⑦ Women are more vulnerable to
poverty and but giving them opportunity
to come out of their shackles ~~with~~ is
essential.

Regional disparities in India are persisting and even worsening in some cases, as pointed out by Economic survey 16-17.

Regional disparities and some of the possible reasons :-

① Hinterland and coastal states -

~~Differ~~ Disparities in Human development Index parameters with lower health status, educational achievement and living standards in hinterland states.

→ Historical disadvantages - colonial policies based on trade favoured port band locations

→ Administrative - lower capacity - lower utilisation of fund - misgovernance

→ Political - poor implementation of land reforms - no gran revolution in

caste - entrenched caste inequalities.

→ economic - location factors of industries display inertia due to presence of market and established infrastructure.

② Within regions - some naturally disadvantaged regions such as drought prone Vidarbha, Rajasthān, Bundelkhand regions.

③ North eastern India - Unique difficulties - multiple tribal groups - difficult terrains - international border disputes - lack of connectivity with mainland (sikkim corridor)

These disparities need to be addressed urgently to achieve sustainable growth.

Some possible strategies

① Area based differential approach depending on opportunities and constraints
e.g. Organic farming, food processing in N-E and Himalayan states.

- starting green revolution in central and N-E India with enhanced focus (as suggested by Shanta Kumar committee)

- (2) Universal education - with good educational outcomes and subsidy - ~~promotion~~
- (3) Financial inclusion \Rightarrow insurance, remittance
- (4) promotion of service based industries in tier 2, tier 3 towns - e.g. BPO scheme.
- (5) Holistic disaster management
- (6) Cooperative and competitive federalism
- (7) Democratic decentralisation - financial commission grants accordingly to be provided.
- (8) Monitoring and evaluation of local government functions along with training and awareness.
- (9) promoting integration, welfare of migrant workers.
These are necessary for political and social stability and inclusive growth of nation.

Monsoon means reversal of wind's direction with changing season.

Factors affecting Indian monsoon

① Location of Inter Tropical Convergence Zone :- Due to intense heating of Tibetan plateau and Indian northern plains from April to June (when sun is vertically over Tropic of Cancer)
→ creates low pressure

② Jet stream :- location of subtropical westerly jet stream over Tibetan highland
— unless it moves northward —
wind ~~can not move~~ ITCZ
cannot shift.

Some temporary jet streams — Somali ~~country~~ jet stream; low level easterly jet stream also influence monsoon

③ El-nino, La-nina condition -

El-nino condition \rightarrow low pressure in eastern pacific disrupts Walker cell and decreases Indian monsoon

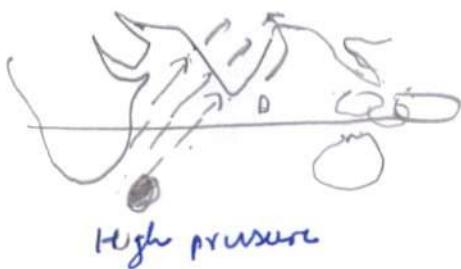

La-nina - opposite of El-nino - increases monsoon in India

④ High pressure in maslowine high -

increase moist wind flow towards Indian subcontinent

⑤ Himalayan - prevent northwesterly cold winds from siberia to reach Indian subcontinent.

Low pressure

There can be many more factors which are incompletely understood or not understood at all. convergence of all

these factors lead to complex Indian monsoon conditions - associated with late/early arrival, breaks, lower/higher rainfall ch.

Indian Meteorological Department has made amazing advancements in prediction, but still finds it difficult to be accurate. Climate change has further exacerbated these conditions.

Cyclone - are characterised by low pressure centre with converging winds (anticyclonic in northern and clockwise is southern hemisphere) associated with high velocity winds and rainfall.

Tropical Cyclone - 30° North and South of equator.

~~Extr~~ Extra tropical (Temperate cyclones) - higher latitudes.

Tropical

Origin

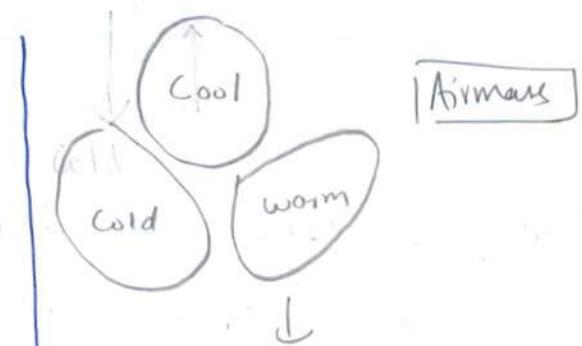

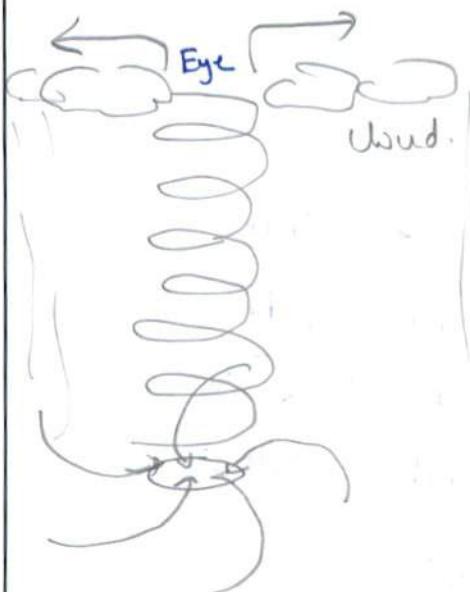

prerequisites -

- pre-existing ~~disturbance~~ disturbance in tropical ocean (for moisture)
- Coriolis force - closed isobar with low pressure
- low vertical wind shear
- unstable convection, spin (vorticity)

Extra tropical

Origin

- influenced by jet-streams
- can occur in land and oceans
- associated with front formation

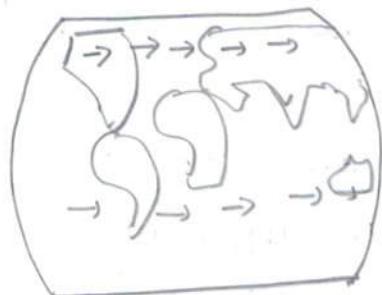

movement

From east to
