Sir,

I crave the hospitality of the columns of your esteemed newspaper to draw the attention of local authorities of "water supply department", towards the problem of water supply in our locality.

For the last seven days, the water supply in our colony has become very irregular. Out of the seven days, the supply was given three days only and that too for only one hour per day.

Yesterday, the water was supplied only for 35 minutes. When contacted, the Assistant Engineer concerned replied that due to some electricity problem the water supply has become irregular.

I was not satisfied with the reply. It appears that the Assistant Engineer concerned is not taking the problem seriously. In the summer season, water is the biggest necessity. I hope you will be kind enough to publish this letter in your daily, so that the higher authorities can solve this acute problem immediately and take action against those who are responsible for it.

Yours truly

Rasik Lal
