

Preface

Sunbeam English Reader-III is developed and formulated in line with the learning outcomes spelt out by NCERT. SCERT, Assam has been given the responsibility of preparing this textbook as a sequel to the new series of textbooks for the Upper Primary level of Education in Assam for implementation from the academic year 2020.

Learning a language means using it for a variety of purposes. Interaction, discussion and sharing of ideas provide opportunities for gathering information about events and experiences. This textbook aims to link the classroom experiences with life of the learners. The lessons are woven around various themes that would make learning for learners joyful and meaningful. This would develop their sensitivity while providing a holistic outlook towards life. The selection of lessons has been made and the language items have been developed keeping in mind the requirements of the present day learner and the world at large. Pre-reading activities at the beginning of each lesson will ignite the imagination of the learners to make their learning a fruitful one. This textbook is an effort to reach out to each learner while helping them to create their own learning experience.

At the end of each lesson a note for the teacher is appended in order to provide useful hints to make learning of English enjoyable and enduring. As a support for teachers and learners, Quick Response Code (Q R Code) has been introduced in this textbook. Passages for listening have also been provided at the end of Lesson 8 of the book.

It is expected that the texts chosen to match the learning outcomes will help learners in understanding concepts clearly. Reading these texts and interacting about their personal experiences will make a smooth shift to the next stage of learning. It is suggested that teachers be acquainted with the curriculum and related Teaching Learning Materials before transacting this textbook cum workbook. The teacher with the help of defined learning outcomes will be able to understand the learning gaps in all children including children with special needs and thereafter plan lesson transaction accordingly for ensuring learning.

In an endeavour to make the textbook more effective, SCERT along with the team effort of the Steering Committee, Academic Core Group, Working Group, Subject Experts, Illustrators, Facilitators in Charge and Technical Assistants have taken great pain in preparation of this textbook. The Steering Committee is grateful to them for their valuable advice and support. We acknowledge the contribution of the entire team for their relentless effort and resources in bringing out this textbook.

We invite suggestions from students, parents, guardians and general public for improvement of the textbook.

A Note to the Teacher

Congratulations, and welcome to the new academic year! In this session, you will be teaching English to the students of Class VIII through **Sunbeam English Reader-III**, a new textbook aimed at making the learning and teaching of English enjoyable and interesting for both learners and teachers. This textbook has eight lessons, each based on a theme relevant for learners of this age group in terms of content and language level. The activities accompanying the lessons are aimed at developing learners' English comprehension skills, and their ability to listen to, speak and write English appropriately, and with confidence. The activities are meant for learners to complete individually, and also in pairs and groups, so that learning English is both meaningful and enjoyable for them.

As you know, **learning by doing** is the most effective way of learning a new skill. Learning a language is learning a skill, because language is used to **do** things in real life, such as expressing our feelings, communicating our needs, performing functions such as greeting, requesting, inviting, writing an application, and so on. We have all learnt our language(s) by listening to what others say while they do things, and by trying to say it ourselves, by making mistakes and not being punished for it.

Through the activities in this textbook, we hope you will encourage your learners to read and understand the lessons by themselves, improve their vocabulary and grammar, and their speaking and writing skills. There are also activities through which learners can practise using English for non-textual activities like making posters and signboards, taking part in quizzes and debates, preparing speeches and stories and sharing them. We request you to let each child try doing the activities and reading the lesson by themselves, even when you feel some children find it difficult. This struggle is necessary for them to develop confidence to speak, read and write in English.

In this textbook, you will also find listening passages at the end to develop learners' listening comprehension. Please read the passages out to learners for the listening activities. Learners should only read them *after the activity* to see whether they have got the correct answers. In the textbook, we have also included a **Read for Pleasure** section, where there are interesting short pieces for your learners. This section is meant to give them practice in reading for pleasure and entertainment, so that they develop the habit of reading. You may conduct activities on the content to ensure that the learners have got into the habit of reading.

Finally, you will notice that there are lessons and activities that include stories or incidents about people from various ethnic, language, religious and cultural backgrounds. There are also lessons and activities relating to children with special needs (CWSN). These are meant to develop in your learners empathy and understanding towards people who are different from them. Please use these lessons and activities to help your learners learn inclusivity and acceptance, so that they can become caring, tolerant and responsible citizens of the country.
