

Hots (Higher Order Thinking Skills)

Q.1. Explain the uses of rocks in our lives.

Ans. The uses of rocks are:

1. Hard rocks are used for making roads, houses and buildings.
2. Rocks are made of different minerals which are important for mankind; for example, coal, petroleum and natural gas.
3. Rocks like aluminium, gold, uranium, etc. are also used in industries such as medicines, fertilisers, etc.
