16. निम्नलिखित गद्य को ध्यानपूर्वक पढ़िए :

कोविड-19 के उपरांत भारत में, निजी अंतिम उपभोग व्यय (PFCE) द्वारा मापा गया घरेलू व निजी क्षेत्र का उपभोग (मौद्रिक रूप में), ₹ 39·7 ट्रिलियन (FY 23, Q1) था जो कि गत वर्ष उसी अवधि में ₹ 28·4 ट्रिलियन था। वर्ष 2021 – 22 (FY 22) की चौथी तिमाही (Q4) में यह व्यय ₹ 39·2 ट्रिलियन था।

मौद्रिक GDP के प्रतिशत के रूप में वित्तीय वर्ष 2022 की पहली तिमाही (Q1 FY 22) की 55.5% के मुकाबले PFCE 61.1% था । हालाँकि वास्तविक रूप में स्थिर कीमतों पर, कोविड-19 से एक वर्ष पूर्व, 2019 – 20 के Q1 की तुलना में PFCE में मात्र 9.88% की वृद्धि दर्ज हुई थी ।

श्री डी.के. श्रीवास्तव ने बताया कि, "घरेलू माँग में सुधार PFCE व GFCF (सकल स्थायी पूँजी निर्माण) की वृद्धि दर (गत वर्ष की संगत तिमाही की तुलना में) से परिलक्षित होता है।" GFCF वित्तीय वर्ष 2022 की पहली तिमाही (Q1 FY22) के ₹ 14.4 ट्रिलियन की तुलना में वित्तीय वर्ष 2023 की पहली तिमाही (Q1 FY23) में ₹ 19 ट्रिलियन पर पहुँच गया है। हालाँकि यह वित्तीय वर्ष 2022 की चौथी तिमाही (Q4 FY22) के ₹ 20.2 ट्रिलियन की तुलना में थोड़ा सा कम है।

GDP आँकड़ों के पश्चात् एक मीडिया ब्रीफिंग में, वित्त सचिव टी.वी. सोमनाथन ने कहा कि यह प्रवृत्ति अपेक्षित थी क्योंकि वर्तमान Q1 में GFCF गत वर्ष के Q4 के बनिस्पत सामान्यत: कम होती थी।

दिए गए गद्य व सामान्य समझ के आधार पर निम्नलिखित प्रश्नों के उत्तर दीजिए :

- (क) वास्तविक व मौद्रिक GDP के प्रतिशत के रूप में PFCE के रुझानों में परिवर्तन की तुलना व विश्लेषण कीजिए।
- (ख) "बाज़ार मूल्य पर सकल घरेलू उत्पाद का निर्धारण करने में निजी अंतिम उपभोग व्यय

**16.** Read the following text carefully :

In India, after Covid-19 period, household and private sector consumption, as measured by Private Final Consumption Expenditure (PFCE), was  $\gtrless$  39.7 trillion in nominal terms in Q1 FY23, compared with  $\gtrless$  28.4 trillion for the same period last year, and  $\gtrless$  39.2 trillion in the fourth quarter (Q4) of 2021 – 22 (FY22).

As a percentage of Nominal GDP, PFCE was 61.1 per cent, compared with 55.5 per cent in Q1 FY22. However, in real terms at constant prices, PFCE grew just 9.88 per cent, compared with Q1 of 2019 - 20 — the year before the Covid-19 pandemic.

"Recovery in domestic demand is reflected in the growth rates of PFCE and Gross Fixed Capital Formation (GFCF) over the corresponding quarter of the previous year," said D.K. Srivastava. GFCF came in at ₹ 19 trillion in Q1 FY23, compared with ₹ 14.4 trillion in Q1 FY22. However, it was slightly lower than ₹ 20.2 trillion in Q4 FY22.

In the media briefing after the GDP numbers, Finance Secretary T.V. Somanathan said this trend was expected as GFCF in present Q1 was usually lower than the previous year's Q4.

On the basis of the given text and common understanding, answer the following questions :

- (a) Compare and analyse the trends of change in PFCE as a percentage of GDP, both in real and nominal terms.
- (b) "Private Final Consumption Expenditure is an important factor determining Gross Domestic Product at Market Price." Justify the given statement.

With independence, India chose the closed economy model in pursuit of its objective of self-sufficiency. As a result, industrial structure has become considerably important. In the post-independence era, the industrial growth was rapid during the first two decades, especially during the Second and Third Plan period. The Second Plan introduced 'Industrial Revolution' in the country. The main reasons for high rates of industrial growth witnessed during this period were due to :

- (i) Emphasis on industrialisation in economic policies.
- (ii) Making industrial growth the main objective in the industrial policy and planning.
- (iii) Huge investments being made to support capacity creation in the industrial sector.
- (iv) Growing demands for a variety of new products on the part of the urban consumers and the relatively better-off sections of the society.
- (v) Pace of economic expansion supported by domestic savings and inflow of resources from abroad.

On the basis of the given text and common understanding, answer the following questions :

- (a) State the time period of the Second Five Year Plan of India.

#### Marking Scheme Strictly Confidential (For Internal and Restricted use only) Senior School Certificate Examination,2023

# **ECONOMICS (SUBJECT CODE – 030)**

# (PAPER CODE - 58/3/3)

	(PAPER CODE – 58/3/3)
Gen	eral Instructions: -
1	You are aware that evaluation is the most important process in the actual and correct assessment of the candidates. A small mistake in evaluation may lead to serious problems which may affect the future of the candidates, education system and teaching profession. To avoid mistakes, it is requested that before starting evaluation, you must read and understand the spot evaluation guidelines carefully.
2	"Evaluation policy is a confidential policy as it is related to the confidentiality of the examinations conducted, Evaluation done and several other aspects. Its' leakage to public in any manner could lead to derailment of the examination system and affect the life and future of millions of candidates. Sharing this policy/document to anyone, publishing in any magazine and printing in News Paper/Website etc may invite action under various rules of the Board and IPC."
3	Evaluation is to be done as per instructions provided in the Marking Scheme. It should not be done according to one's own interpretation or any other consideration. Marking Scheme should be strictly adhered to and religiously followed. <b>However, while evaluating, answers which are</b> <b>based on latest information or knowledge and/or are innovative, they may be assessed for</b> <b>their correctness otherwise and due marks be awarded to them. In class-X, while evaluating</b> <b>two competency-based questions, please try to understand given answer and even if reply is</b> <b>not from marking scheme but correct competency is enumerated by the candidate, due</b> <b>marks should be awarded.</b>
4	The Marking scheme carries only suggested value points for the answersThese are in the nature of Guidelines only and do not constitute the complete answer. The students can have their own expression and if the expression is correct, the due marks should be awarded accordingly.
5	The Head-Examiner must go through the first five answer books evaluated by each evaluator on the first day, to ensure that evaluation has been carried out as per the instructions given in the Marking Scheme. If there is any variation, the same should be zero after delibration and discussion. The remaining answer books meant for evaluation shall be given only after ensuring that there is no significant variation in the marking of individual evaluators.
6	Evaluators will mark( $$ ) wherever answer is correct. For wrong answer CROSS 'X" be marked. Evaluators will not put right ( $\checkmark$ ) while evaluating which gives an impression that answer is correct and no marks are awarded. This is most common mistake which evaluators are committing.
7	If a question has parts, please award marks on the right-hand side for each part. Marks awarded for different parts of the question should then be totaled up and written in the left-hand margin and encircled. This may be followed strictly.
8	If a question does not have any parts, marks must be awarded in the left-hand margin and encircled. This may also be followed strictly.

9	If a student has attempted an extra question, answer of the question deserving more marks should be retained and the other answer scored out with a note "Extra Question".
10	No marks to be deducted for the cumulative effect of an error. It should be penalized only once.
11	A full scale of marks 80 (example 0 to 80/70/60/50/40/30 marks as given in Question Paper) has to be used. Please do not hesitate to award full marks if the answer deserves it.
12	Every examiner has to necessarily do evaluation work for full working hours i.e., 8 hours every day and evaluate 20 answer books per day in main subjects and 25 answer books per day in other subjects (Details are given in Spot Guidelines).
13	Ensure that you do not make the following common types of errors committed by the Examiner in the past:-
	<ul> <li>Leaving answer or part thereof unassessed in an answer book.</li> <li>Giving more marks for an answer than assigned to it.</li> <li>Wrong totaling of marks awarded on an answer.</li> <li>Wrong transfer of marks from the inside pages of the answer book to the title page.</li> <li>Wrong question wise totaling on the title page.</li> <li>Wrong totaling of marks of the two columns on the title page.</li> <li>Wrong grand total.</li> <li>Marks in words and figures not tallying/not same.</li> <li>Wrong transfer of marks from the answer book to online award list.</li> <li>Answers marked as correct, but marks not awarded. (Ensure that the right tick mark is correctly and clearly indicated. It should merely be a line. Same is with the X for incorrect answer.)</li> <li>Half or a part of answer marked correct and the rest as wrong, but no marks awarded.</li> </ul>
14	While evaluating the answer books if the answer is found to be totally incorrect, it should be marked as cross (X) and awarded zero (0)Marks.
15	Any un assessed portion, non-carrying over of marks to the title page, or totaling error detected by the candidate shall damage the prestige of all the personnel engaged in the evaluation work as also of the Board. Hence, in order to uphold the prestige of all concerned, it is again reiterated that the instructions be followed meticulously and judiciously.
16	The Examiners should acquaint themselves with the guidelines given in the " <b>Guidelines for spot Evaluation</b> " before starting the actual evaluation.
17	Every Examiner shall also ensure that all the answers are evaluated, marks carried over to the title page, correctly totaled and written in figures and words.
18	The candidates are entitled to obtain photocopy of the Answer Book on request on payment of the prescribed processing fee. All Examiners/Additional Head Examiners/Head Examiners are once again reminded that they must ensure that evaluation is carried out strictly as per value points for each answer as given in the Marking Scheme.

(b)	Suppose an imaginary economy is facing a situation of deficient demand in the short run time period. Discuss briefly, the probable impacts of the same on the economy. Ans. Deficient Demand may have an adverse impact on output, employment and income level. As Aggregate Demand is less than Aggregate Supply at full employment level of income, this may lead to unintended accumulation of inventories. To restore desired/intended level of inventories, producers may contract production which in turn may reduce the employment, output, and income level in the economy. Lack of demand for goods and services may also lead to a fall in the general price level in the economy. (To be marked as a whole)	4

Suppose the following information is given about a hypothetical economy: C = 300 + 0.80 Y (where, $C = Consumption and Y = Income$ ) $I_0=200$ ( $I_0 = Autonomous Investment$ ) Calculate the following on the basis of the given information: (a) Equilibrium Level of Income (b) Aggregate Demand at Equilibrium Level of Income (c) Marginal Propensity to Save Ans. Given, $C = 300 + 0.80Y$ ; $I_0 = 200$ (a) We know that; At equilibrium level of income Y = C+I Y = (300 + 0.80Y) + 200 0.20Y = 500 Y = 2,500	1/2 1/2 1/2 1/2

Krish was of the view that most of the luxury items (like foreign travel, imported cigarettes, etc.) should be taxed exorbitantly, while the items related to daily consumption of poor and middle class should be tax-free.	
		Identify and explain the objective of the Government budget Krish is suggesting.	

	Ans. Krish is suggesting the objective of 'Re-distribution of income' to reduce income inequalities in the economy. To ensure equitable distribution of income, the government may impose higher taxes on luxury items. This will reduce the purchasing power in the hands of rich. On the other hand, lower/no taxes may be imposed on commodities purchased by poorer section of society. They may also be provided with subsidies on the essential commodities. This may increase their disposable income. These steps may promote economic welfare through re-distribution of income in the economy.	1 3
( <b>ii</b> )	State the meaning of 'primary deficit' in the government budget. Ans. Primary deficit refers to the excess of fiscal deficit over interest payments. Primary Deficit = Fiscal Deficit – Interest Payments	1 <sup>1</sup> / <sub>2</sub> <sup>1</sup> / <sub>2</sub> 6

33.	Read the following text carefully:	
	With independence, India chose the closed economy model in pursuit of its objective of industrial self-sufficiency. As a result, industrial structure has become considerably important. In the post-independence era, the industrial growth was rapid during the first two decades, especially during the Second and Third Plan period. The Second Plan introduced 'Industrial Revolution' in the country. The main reasons for high rates of industrial growth witnessed during this period were due to:	
	<ul><li>(i) Emphasis on industrialisation in economic policies.</li><li>(ii) Making industrial growth the main objective in the industrial policy and planning.</li></ul>	
	<ul> <li>(iii) Huge investments being made to support capacity creation in industrial sector</li> <li>(iv) Growing demands for a variety of new products on the part of the urban consumers and the relatively better-off sections of the society.</li> <li>(v) Pace of economic expansion supported by domestic savings and inflow of</li> </ul>
