# *Foreword*

The CBSE's English language Curriculum in the classes IX to XII, in particular XI & XII, stands out for its strong dynamism and continuous evolution and development. In the current climate of psychological, social and economic changes, the trend is influenced by explosive knowledge creation and exponential technology growth. Thus, the need to modify and infuse changes in the English Curriculum at the +2 level is a necessary step in the upgradation and updation of the earlier English curriculum. The aim is to bring it at par with other academic, competency and skills-based disciplines, in its rigor and content. It should be borne in mind that the methodology used in the classroom will be automatically followed by some alterations in the language teaching and learning process. The increasing use of audio- visual aids and the internet also impacts our objectives to give our learners greater autonomy in their learning, enabling differentiate instruction, and, its transformational impact on teaching methods and deployment of assessment tools, consistent with those objectives.

At the + 2 stage, students begin to contemplate and introspect on their choice of subjects for higher study, and the mastery of the language forms the foundation for their higher education. They may choose advanced, specialized courses-including English Language & Literature, among courses offered in leading universities in India and abroad. At the later stages of their academic tenure, students' levels of competency can also notably influence their career path.

The English Elective CBSE course has four major components.

1. The **Literature Reader** which is divided into three parts: prose, poetry and drama. Leading writers in English, from India, UK, Australia, Canada etc.,have brought in a range of styles which infuse variety, along with a range of values-based themes that can be easily understood and appreciated by the age group. The learning experiences offered through the activities are exhaustive as they cover literary appreciation, along with the development of the four language skills.
2. The **Novels:** Inculcating habits of extensive and independent reading among youth has always been a concern for all stakeholders. The two prescribed novels serve the purpose of creating independent individuals with the ability to not only create their own knowledge, but also critically interpret, analyse and evaluate it with objectivity and fairness. This will also help students in learning and acquiring greater proficiency in the language and higher level of skills in language use. Sample questions are provided at the end of the book as practice materials that are broadly reflective of the typology.
3. The **Language Skills Book** is a value added feature of the class XII English curriculum, and is based on a set of five themes, which students can relate to. The units offer a wide range of sub-themes and skills -based activities that will equip students to introspect, research, analyse and evaluate knowledge content independently, extend and apply such knowledge and skills in a

number of academic and professional contexts. Sample questions are provided at the end of the book as practice materials that are broadly reflective of the typology. By the end of the course, students will read, write and use grammar structures and a wider set of vocabulary effectively and, learn to speak and listen efficiently.

4. **Speaking and Listening Skills:** Speaking and listening skills need a very strong emphasis and is an important objective leading to academic and professional competence. To this end, speaking and listening skills are overtly built into the material, namely, the workbook, to guide teachers in the actualization of the skills. As good communication skills raise the self-esteem and give a student confidence to face the challenges of life, it is desired that the student acquires proficiency in it by the time he or she completes school education

The teachers handling the course need to inform themselves regarding the effective use of course content, teaching methodology, lesson planning, deployment of electronic technology for teaching, management of group work and independent individual work, managing large classes, appropriate use of assessment tools and, grading and record keeping to benefit their students.

The seamless integration of the language skills will provide students more focused language skills necessary for their successful upward mobility academically and professionally, as a result of their higher standard of English proficiency. This will enhance the total Learning Experience of our students who will be the unequivocal beneficiaries of the most life-long and significant transferable job skill that supports the achievement of their life goals, as confident and competent communicators in English.

The revision of this book would never have been possible but for the sincere effort and devotion put in by Ms. P. Rajeswary, Education Officer (Academics) and her team, under the leadership of Dr. Sadhana Parashar, Professor and Director (Academics, Research, Training & Innovation), CBSE.

Any further suggestions are all welcome and will be incorporated in the future editions.
