Preface

The Central Board of Secondary Education has initiated a policy of introducing competency based Vocational Courses in various sectors of the economy in collaboration with leading industries of the similar field. The objective of such courses is to develop employable skills among the students for self as well as job employment. The Board has initiated the process to revamp the vocational education in the country by making it more acceptable and useful for the students. Under such program, the Central Board of Secondary Education in collaboration with National Council for Hotel Management and Catering Technology has introduced two Vocational Packages such as 1. Food Production 2. Food and Beverage Service at Senior Secondary Level.

The Curriculum of Food Production introduced by CBSE from the academic session 2010-11 in class XII is competency-based and skill oriented. The foundation course in Food Production gives an insight into the basics of cooking food coupled with the scientific approach by trying to understand the basic commodities, utilized in the preparation of food. Cooking of food is a skill based education that requires both, the style of art and the method of science. Though the scope of Food Production is very wide, yet the authors have tried their best to cover adequately the syllabus at senior secondary level. Any suggestion(s) to improve the textbook is welcomed from both students and the faculty.

The present text book “Food Production - III” is written in a manner which is easy to read and understand. It is to develop knowledge and understanding of food commodities and dishes regarding quality and use. It brings out the safety procedures to be followed by all the food handlers. It is designed to provide foundation for acquiring basic professional skill and knowledge. Since illustrations form an indispensable part of visual impression and comprehension of concepts, pictures are given adequately in this book to achieve the same.

The Board acknowledges the contribution made by the team of experienced authors in completing the manuscript. The text book on Food Production is an outcome of a series of meetings organized by the Vocational Unit. The process initiated under the direction of Shri Shashi Bhusan, former Director (Edusat and Vocational) and further completed under the guidance of Dr. Rashmi Sethi (Education Officer) and her team. A special mention to the efforts of Research Fellow, Ms. Sunaina Srivastava who carefully proof read the manuscript. The Board duly acknowledges the role of NCHMCT, Noida for Technical guidance to promote the hospitality education at school level in India. I am sure this book would serve the purpose of a useful resource material for students and the teachers.
