Preface

This book is written according to the syllabus prescribed for class-XI by the Board of Secondary Education Rajasthan, Ajmer. From the primitive men to the present day period is included in it. With this it is kept in the mind that the students should be introduced with the political, social, economic cultural and scientific tendencies by studying this book. In the chapters of ancient civilizations and religious of the world, the Bharteeya Dharma also included, so that the students could know and aware about the global influence of Bharteeya knowledge. Similarly the American struggle is seen with a new prospect, so that one may concentrate centrally on the fundamental problems of America. The students could easily guess the seriousness of the terrorism through the recent incidents. Hope this book shall prove helpful in developing the global approach in the students. The convener and the authors convey thanks to the scholars whose books are consulted to prepare this book.
