16. Women for Trees

Bhalapur is a village nearly 84 kilometers from the block office of Mohla in the Rajnandagaon district of Chhattisgarh. Today, on what was a 12- hectare plot of deforested land, stands a dense green forest. In the mid eighties, Vikram of Bhalapur organised all the women in the village, largely oppressed and adivasis, into Mahila Mandal.

The Mahila Mandal had discussions on village problems. It was evident from the discussions that the greatest problem was collecting fire wood. The village forest was shrinking. Thanks to the felling of trees by insensitive people.

The forestland at the time was full of stumps of felled trees. For protection from grazing animals, the women dug deep trenches all around the deforested area. They stood up as guards against poachers and timber mafia.

Soon leaves started to sprout on the stumps. Today, a dense forest stands on the outskirts of the village. The dry twigs fulfill the locals' need for fire wood and the biodiversity of the new forest is a reward of their efforts. Later, plantations were done by the locals. The successful initiative has also inspired those in the village who had initially opposed the effort. It is not big projects and money that will protect the forests. But if due importance is given to local needs, people will come forward themselves to protect our forests.
