23	23	23	<p>Q. Aman, Ahmad and Ally are partners in a firm engaged in the distribution of dairy products in Maharashtra state. Aman is a holder of Senior Secondary School Certificate from Central Board of Secondary Education with Business Studies as one of his elective subjects. Ahmad had done his post graduation in History and Ally in dairy farming. One day there was a serious discussion between Ahmad and Ally regarding the nature of management, Ahmad argued that management was a profession. Whereas Ally argued against it saying that the legal and medical profession are the only professions because they fulfill all the conditions of profession.</p> <p>Aman on the basis of his knowledge of business studies explained the nature of management as a profession to Ahmad and Ally.</p> <p>Explain, how Aman would have satisfied both Ahmad and Ally</p> <p>Ans. Aman would have satisfied both Ahmed and Ally by explaining the following features of management as a profession.</p> <p><u>(i) Well-defined body of knowledge:</u></p> <p>All professions are based on a well-defined body of knowledge that can be acquired through instruction. Management too is based on a <u>systematic body of knowledge</u> comprising well-defined principles. <u>This feature of profession is present in management.</u></p>	<p>$\frac{1}{2}$ mark for each heading</p> <p>+</p> <p>$\frac{1}{2}$ mark for its explanation</p> <p>=</p> <p>1 x 5</p> <p>=</p> <p>5 marks</p> <p>+</p> <p>1 mark for conclusion</p> <p>=</p> <p>5+1</p> <p>=</p> <p>6 marks</p>

			<p><u>(ii) Restricted entry.</u> The entry to the above stated profession is restricted through a prescribed qualification. But there is <u>no restriction</u> on anyone being appointed as a manager in any business enterprise. So, presently <u>this feature of profession is not present in management</u></p> <p><u>(iii) Professional association.</u> Legal and medical professions are affiliated to a professional association like bar council and medical council which regulates entry, grants certificate of practice and formulates and enforces a code of conduct. There are <u>several associations</u> of practising managers in India, like the <u>AIMA</u> that has laid down a code of conduct to regulate the activities of their members. There is, however, <u>no compulsion</u> for managers to be members of such an association. So, presently <u>this feature of profession is not present in management</u></p> <p><u>(iv) Ethical code of conduct.</u> Legal and medical professions are bound by a code of conduct which guides the behaviour of its members. AIMA has devised a code of conduct for Indian managers <u>but there is no statutory backing for this code</u>. So, presently <u>this feature of profession is not present in management</u>.</p> <p><u>(v) Service motive.</u> The motive of legal and medical profession is to serve their client's interests by rendering dedicated and committed service. The basic purpose of management to help the organisation achieve its goals by providing good quality products at reasonable prices, thereby serving the society is being increasingly recognised. So, presently <u>this feature of profession is not fully present in management</u>.</p> <p>The above discussion shows that management does not satisfy all the criteria of a profession. Through the above discussion Aman would have been able to satisfy both Ahmed and Ally by making them understand that Management is a profession but not a full fledged or a true profession.</p>
