HOMOPHONES AND HOMONYMS

What are homophones and homonyms?

Quite often, a word can have multiple meanings despite holding the same sound or spelling. If one does not have a sound knowledge of such words, understanding English can be a daunting task. Therefore, it is very important to know the difference between homonyms, homophones and homographs.

HOMONYMS:

 Words that have the same spelling and pronunciation but different meanings are known as Homonyms.

I <u>can</u> go to the library only after noon. (Can=verb (ability)) The <u>can</u> was opened by a knife. (Can=noun (container))

HOMOPHONES:

 Words that have the same pronunciation but different spellings and meanings are known as Homophones.

Mother served us chocolate <u>dessert</u>. (Dessert=eatable) The boy was stranded alone on the <u>desert</u>. (Desert=land mass)

Homo (same) + Nym (name)	=	Homonym (same name)
Homo (same) + Phone (sound)	=	Homophone (same sound)

Let us now look at some homophones.

- "<u>Ave Ave</u> Captain!" said the sailor as he pulled the sails. (old English for 'yes') The stone hit the worker in the <u>eve</u> while he was working in the quarry. (part of the body)
