Preface

The world of finance has changed drastically over the last few years. India is one of the largest emerging markets in the world with enormous potential for growth in the coming years. The financial market is also expanding and attracting a large number of domestic and foreign investors. The phenomenon is creating a great demand for a large number of trained professional to manage and advise investors. Only those who have adequate knowledge and skills in financial markets can look forward for a secure and bright future in this market.

In view of the urgent need to give greater thrust and a new direction to Vocational Education in the country, CBSE in collaboration with National Stock Exchange has launched a new generation vocational course in Financial Markets Management (FMM) from 2007 at senior secondary level. Based on the feedback from the school students, teachers, principals and industry, the curriculum of FMM has been revised and updated through a curriculum committee chaired by Mr. G. C. Sharma, Head Financial Education, Schools and Universities of NSE. Accordingly, this stream will have 2 papers in class 11 viz Foundations of Financial Markets and Mutual Funds. The paper in class 12 are Capital Market Operations and Derivative Markets Operations. The Curriculum and contents of books for these papers is provided by NSE. The students will also pass relevant NSE's Certification in Financial Markets (NCFM) making them eligible to rub shoulders with professionals in the field.

The vertical mobility of students from FMM stream is taken care due to rigorous efforts of NSE. Now a large number of universities have launched higher degree programs such as BBA and MBA in Financial Markets e.g. a 5 years integrated MBA (Financial Markets) from Punjabi University, Patiala, a 2 years MBA (FM) from GGS Indraprastha University Delhi etc.

As a result of constant efforts from CBSE, The UGC has already issued guidelines to universities for launch of B. Voc. Degree in order to provide vertical mobility to students coming out of 10+2 with vocational subjects. The Govt. of India, through a notification no. 8/6/2013-Invt. Dt. 27th December 2013 from Ministry of Finance, on National Skill Qualification Framework (NSQF) provides for multiple entry and exit between vocational education, skill training, general education, technical education and job markets. Thus students with FMM course can either go for employment or higher studies depending upon their career choice.

The Board takes this opportunity to thankfully acknowledge the commendable work of NSE in providing support to CBSE for successfully launching and implementing FMM course. The awareness workshops, training of teachers, latest curriculum for FMM papers, NSE Learn to Trade (NLT) software for skill development for students are just a few of them. The team at CBSE (Vocational Cell) also deserve appreciation for their dedication.
