

The annual sports day in our college

Sports are essential for achieving the true education. Mahatma Gandhi, the Father of the Nation, was of the opinion that true education meant harmonious development of three organs of man via; body, mind and soul, if anyone of these is neglected then certainly the purpose of Education is forfeited.

Sports Day is celebrated in our college every year. It falls on 26th January. It was the only function that I took keen interest in and won two prizes, one is long race and the other unhitch jump on the scheduled day. The physical instructors were busy in making preparations. All the classes from our college were extended invitation to participate. The play grounds were swept and water was sprinkled. It was a very bright and cheerful day. It was neither very cold nor very hot. It was neither very cold nor very hot. It was an ideal day for sports.

A big tent was put up for spectators. The day started with the unfurling of the college flag and the march past of the athletes belonging to all the classes taught in the college. Our Principal declared the meet open. Then various events followed. The first item was the one hundred meter race.

It provided a lot of interest and excitement. It was followed by two other with some teachers. It was a great fun seeing. Some guests in dark long suits taking off their coats and marching to the rescue of the guest team. There was a lot of noise and the students were raising the spirits of their favourite party.

Then the college Director of Physical education read the report, after which the Chief Guest gave away the Prizes. It was a day full of excitement and enthusiasm. Several old records were broken and some new records were created. Then the function came to a close, with the spectators and participants going to their homes. Before leaving the playground all were entertained with tea and snacks.
