

CHAPTER – 18

A HOUSE LIKE THIS

Page No 117:

Question 1: Why are houses made on bamboo pillars where Bhupen lives?

Answer:

Bhupen lives in Assam, where it rains heavily. To avoid flooding of the house during rains, the houses in Assam are made ten to twelve feet above the ground on strong bamboo pillars. Hence, in Bhupen village, houses are made on bamboo pillars.

Question 1: What kind of roofs do these houses have? Why are they made like this?

Answer:

These houses have slanting roofs which prevent water from seeping inside. Also, the water that falls on them, slides off on the ground and does not accumulate on the roof.

Question 2: How does one enter these houses?

Answer:

One can use ladder like staircase to reach the entrance of these houses.

Question 3: At night the ladder is removed from these houses. Can you tell why?

Answer:

At night, the ladders are removed from these houses to avoid the entry of strangers, thieves or animals such as monkeys.

Question 1: In which area is Chameli's house?

Answer:

Chameli's house is in Manali, which is a hilly area.

Question 2: What is the similarity in the roof of Chameli's and Bhupen's houses?

Answer:

Both Chameli's and Bhupen's houses have slanting roofs.

Question 3: How do roofs help in their areas?

Answer:

Roofs in their areas are slanting. When water or snow falls on these roofs, they slide off the roof to the ground. This avoids the accumulation of snow or water on the roof.

Question 1: How is a houseboat different from other houses?

Answer:

All other kinds of houses are fixed at one place, while a houseboat floats on water.

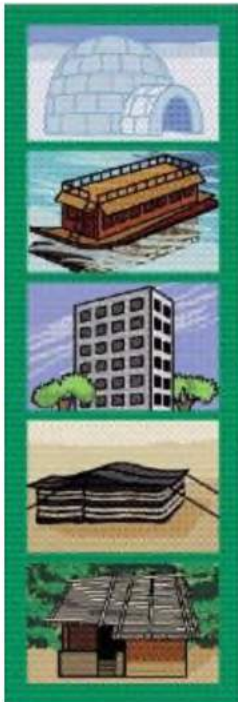

Question 2: Would you like to live in such a house? Why?

Answer:

Disclaimer: The purpose of this section is to make the students interactive and express their feelings. The answer may vary from student to student based on his/her choices and feelings. It is highly recommended that the students prepare the answer on their own.
