Preface

In view of NCF 2005 and RTE – 2009, many far reaching changes have been carried out in the curriculum as well as the whole education system in Gujarat. While the focus of these changes has been on the fundamental concepts regarding the very process of education, the perceptible difference can be noticed in the new orientation given to the classroom interaction between the teacher and the learner as also among the learners themselves. This new orientation aims at promoting creativity, critical thinking and analytical abilities. In language education, particularly, this change of orientation can be noticed in the shift from predictable, content based comprehension and expression to constructive, meaningful interaction. This shift of focus requires the teacher to discourage memorisation of text based answers and encourage variation in response generated by authentic experiences in real life situations. This has been done by providing learning tasks in the form of activities rather than text based exercises.

We have also received valuable cooperation of H. M. Patel Institute of English Training and Research in this process. The textbook has been prepared in the light of constructive suggestions given by subject experts as well as practicing teachers. Care has been taken to retain the good elements that were tried and tested in the earlier textbooks, and new elements have been added in the light of the new orientation. Thus, efforts are made to prepare an error free and pedagogically effective textbook. However, we shall welcome constructive suggestions to improve the quality of the work.

With all good wishes.

INTRODUCTION

We are happy to present this textbook for joyfully learning English. This book reduces the burden of the children by combining mathematics, environmental science and English in a unique fun loving way.

With the emphasis on learning by doing, this book focuses on oral work in the first few units and gradually introduces reading and writing thereafter. Hence the beginning units have only illustrations that go with the stories, rhymes and activities. For suggestions about the classroom procedures, the stories to be narrated and for the rhymes, games and other activities, you may refer to the Helpline. Parents who are interested in participating in the children's learning process could also use the Helpline. They could also enhance the children's language competence by providing exposure to the language and by encouraging the children to use English for a variety of purposes.

Each unit in the book begins with a whole class activity such as the teacher narrating a story based on the pictures given in the children's book. After this children work in groups of four or six and then with a single pair partner. This leads to individual work where the children develop the ability to do some productive work on their own. At the end, once again call the whole class together. Thus, each unit begins with the whole class working together and ends with the whole class sharing their learning experience. In between the children work in groups, pairs and as individuals.

There are colourful pictures in the book. Further, space is provided for children to draw and colour specific sketches according to teacher's instruction. The illustrations and the activities based on them help the learners. Explore the world by using all their senses. They talk about what they see, hear, smell, taste and feel. This helps in their overall development and provides a strong foundation for their ability to think and use language meaningfully.

Learning of a language is not limited to learning the alphabets, words and sentences alone. Once a language is learnt, it becomes a tool for various purposes. For this to happen, the children should be engaged in meaningful interaction with their classmates and the teacher. The emphasis has to shift from mechanical copying of letters, words and sentences to real communication. Hence, the first few units do not expect them to read or write anything. They just listen to the teacher, look at the pictures and learn to interact. Whatever they draw or say will convey their own ideas and feelings. The later units gradually introduce reading and writing. Towards the end of the year, they will learn to write a few words and sentences. This is in keeping with the latest developments in the teaching and learning of languages.

The focus of both teaching and testing at this level is certainly not on making the children memorize the spellings of words. Children should be able to

- Listen to English and understand what is said
- Use a few words in English expressing their own thoughts, ideas and feelings
- Look at pictures and understand what they stand for
- Read a few words and sentences with understanding
- Write a few words and sentences which they have already used orally.

The main purpose of the book is to make the children experience the pleasure of learning a new language. At this age, children can learn any number of languages as easily as they learn their mother tongue. When they learn their mother tongue they just listen to others and then respond in their own way. They begin to repeat some words and then begin to use the language creatively and meaningfully. Similarly, while teaching any other language the emphasis should be on listening. That is, children may respond with hand gestures, head nods, facial expressions, sketches etc. Later they may respond by repeating some part of what they hear. Then, gradually, they learn to express their own ideas and receive others' responses. When they learn their mother tongue, they do not learn to read and write till they have learnt to use the language orally. Similarly, when we teach a new language, it is necessary to introduce it orally before we ask the children to read and write words and sentences in that language. The teaching of a new language should never begin with the copying of the alphabets. That is why this book has no written words in the first few units.

At the end of the year, the children are expected to do the following :

- Participate in a simple conversation including greetings and simple responses
- Listen and understand stories and conversation based on pictures
- Listen and recite simple rhymes
- Talk about one's own likes, dislikes, feelings, etc. and share information and experiences
- Read and write simple words and sentences which express personal information and ideas felt and experienced.

Parents can help their children by using the language in meaningful contexts as part of day-to-day life and thereby provide natural exposure. They can help the children participate in real interaction wherein their response may be a simple gesture, one word or part of a sentence. They can describe the pictures in the textbook to the children and tell them stories in English.

We enjoyed preparing this book and we hope that you and the children will enjoy using it.

ACTIVITY - 1 to 5 : Jumbo's Dream

This is Jumbo. Jumbo is a baby elephant. Jumbo is sleeping. He is dreaming. In his dream, Jumbo sees a tree. The tree is full of chocolates. Chocolates also grow on the tree just like fruits.

He calls out to his friend Camel. Jumbo says, "Camel, Camel! Come here please." Camel comes slowly and says, "What is it Jumbo? What do you want?" Jumbo points to the chocolates and says, "Look at the chocolates." Camel moves his tongue over his lips [like this- show action] and says, "Hm....They look nice." Jumbo says, "Can you reach them?" Camel says, "Let me try" and tries to touch the chocolates.

Then Jumbo calls out to Donkey. Jumbo says, "Donkey, Donkey! Come here please." Donkey comes slowly and says, "What is it Jumbo? What do you want?" Jumbo points to the chocolates and says, "Look at the chocolates." But the camel cannot reach the chocolates. He says, "Oh, I'm sorry. I can't reach them." Jumbo says, "Stand on Camel." Donkey stands on Camel and tries to reach the chocolates. But he can't reach them. Camel and Donkey say, "Sorry Jumbo. We can't get you the chocolates,"

Donkey stands on Camel, Dog stands on Donkey and Cat stands on Dog. Cat tries to touch the chocolates. Jumbo says, "Please, please, get me one." Cat tries hard. But she cannot reach the chocolates. She says, "Oh, I'm sorry. I can't reach them." All of them say, "Sorry Jumbo. We can't get you the chocolates."

Then Jumbo sees Rabbit coming out of a hole. He calls Rabbit. He says, "Rabbit, please come here." He comes running. He says, "What is it Jumbo? What do you want?" Jumbo points to the chocolates and says, "Look at the chocolates." Rabbit moves his tongue over his lips and says in "Hm...They look nice." Jumbo says, "Camel can't reach them. Donkey can't reach them. Dog and Cat can't reach them. Can you please reach them?" Rabbit says, "Let me try." Rabbit happily runs up Camel's legs, goes up Donkey's tail and climbs on Dog and Cat. Jumbo says, "Please, please, get me one." Rabbit can easily reach the chocolates.

Rabbit picks the chocolates one by one and gives them to Cat. Cat passes the chocolates to Dog. Dog gives the chocolates to Donkey and Donkey passes them on to Camel. Camel gives the chocolates to Jumbo, the baby elephant. Now what does Jumbo do? You guess.

Kitty : Bye- bye. Buy my mother has not come.
Puppy : Do you want to come with us?
Kitty : No, it's all right. I'll go home myself.
Kitty : I think it's straight.
(in the street)
Kitty : Where's my home? I'm lost!
(Aunty Goat passes by)
Kitty : Please help me aunty. I'm lost.
Aunty : Oh dear! what's your name?
Kitty : Kitty.
Aunty : Where are you going?
Kitty : Home.
Aunty : What's your address?
Kitty : I don't know.
Aunty : Where do you live?
Kitty : Near my School.
Aunty : What is the name of your school?
Kitty : Happy school.
Aunty : Don't worry. I know where it is
(at school)
Kitty : Mama, mama. I got lost. Aunty Goat helped me.
Cat : Thank you so much. Now let's go home.
Please come home for a cup of tea.

4. RHYME :

This is my right,
This is my left.
This is my right, my left.
Here are both of them.

Which is your right?
Which is your left?
Which is your right, your left?
Where are both of them

Put your right foot in,
Put your right foot out,
Put your right foot in,
And shake it all about,
Do the boogie-woogie
That's what its all about.

Put the funnel in the bottle.
Keep the bottle in rain.
Note how much it rained.
Note the time to find how long it rained.

Write the date and put a tick mark under the right column.

Date	More rain	Less rain

Helpline

Introduce the idea of measuring things. Make them measure their benches, chairs, books, etc. using their hands. Let them understand the concept of 'long' and 'short'. Then make them measure the quantity of water in a glass, in their water bottles, etc. Introduce them to the idea of comparing two measures and say, for example, 'more water', 'less water', etc. After that, ask children to draw two glasses in their notebook with more water in one and less water in the other, and colour the glass with more water in blue and less water in red.

ACTIVITY - 10 (B)

ACTIVITY - 10 (C)

Helpline

10 (B) Here, students write the missing numbers. Use number cards or other TLM to revise numbers. Give individual help if needed. See to it that all students understand and write.

10 (C) Students write in this activity. Help students calculate the sums given in the picture of a "well". Revise using objects. If needed help students individually.

ACTIVITY - 10 (D)

Helpline

Here, firstly, students count each set of leaves and write the number below. Then they match the pictures with similar numbers of leaves. Use the example given to explain this process. Revise this process using objects like pebbles, leaves, or sticks. Plan counting up to 18.

Unit-6 Helpline

Story : Rain, Rain, Lovely Rain

It is raining outside. All the animals are playing in the rain. Jumbo elephant is splashing in a dirty puddle. Pinky peacock is dancing in the rain. Dinky dog is running fast. Bushy squirrel is running on the branches. Motu monkey is hanging upside down on a tree. The sparrow is flying from one branch to another. Kitty doesn't like to get wet. So, she is sitting under a tree.

Look, the rain has stopped. It's not raining now. But all the animals are covered with mud.

"All of you are so dirty" says Kitty. "Come on. Wash yourselves."

"But I like being dirty," says Jumbo.

All others nod their head to say, "yes".

"Come on Pinky. Clean yourself," says Kitty.

"I love to dance in the rain," says Pinky peacock.

"Hi, Dinky. Come and wash yourself," says Kitty.

"Wow, wow," says Dinky dog and runs away.

Kitty starts liking itself. She likes her legs, she licks her paws and she licks her stomach. Now she looks very clean.

Kitty says, "Oh, look at me. I'm so clean, I'm so neat."

She proudly walks with her head held high. She says, "I'm clean. You're dirty."

"I'm clean. You're dirty." She says this 10 times.

All the animals look at each other. They say, "We are not clean. We are dirty. We should clean ourselves."

So all of them start cleaning themselves.

Pinky peacock cleans himself with his beak.

Motu monkey cleans his face with his hand.

Bushy squirrel shakes herself.

Dinky dog cleans himself with his paw.

And what about Jumbo?

He sprays water on himself with his trunk.

Now all the animals are very clean and neat.

They all look beautiful.

Rhyme : Fun In The Rain.

Rain, rain, rain

Rain, rain, rain

Dribble, dribble, sploosh!

Dribble, dribble, sploosh!

Grab your boots, your coat, and hat,

Jump in a puddle and go kersplat!

Stomp about and become a drowned rat,

Rain, rain, rain

Rain, rain, rain.
