

## **Birthday Party I enjoyed the most**

---

Celebrating of birthday has become a part and parcel of our life. My parents celebrate my birthday every year of 20th may. This year I had a special program for its celebration. I invited about fifty friends and relatives. They brought me beautiful and costly presents. The drawing room of our house was tastefully decorated. Chairs and tables were laid for the guests. A big birthday candle. I cut the cake with a knife. All present programs. Some of my friends sang sweet song. Some showed dance. My relatives garlanded me. I felt very proud on that day. I looked like a prince. In the end we had a light refreshment. My parents blessed me and my relatives and friends wished me long life. This was one of the happiest days of my life.
