

CHAPTER - 7

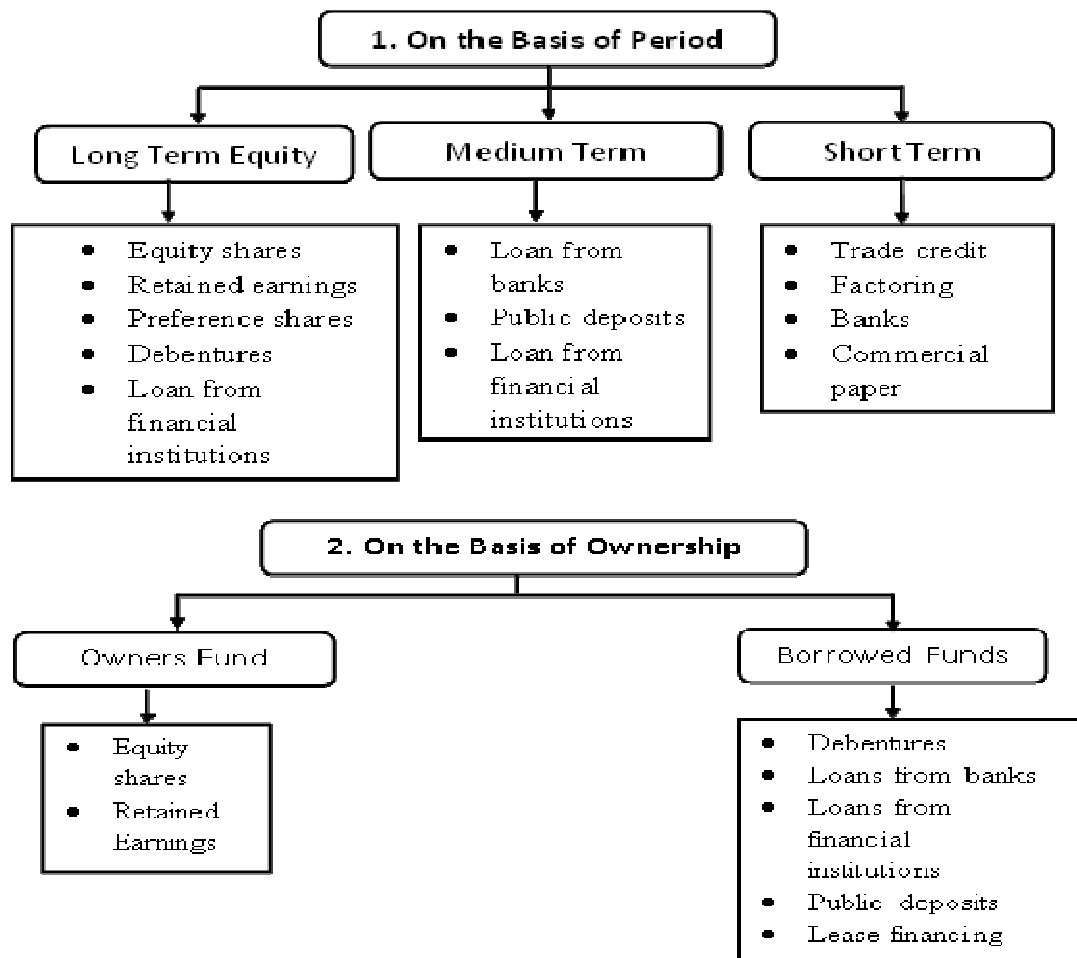

SOURCES OF BUSINESS FINANCE

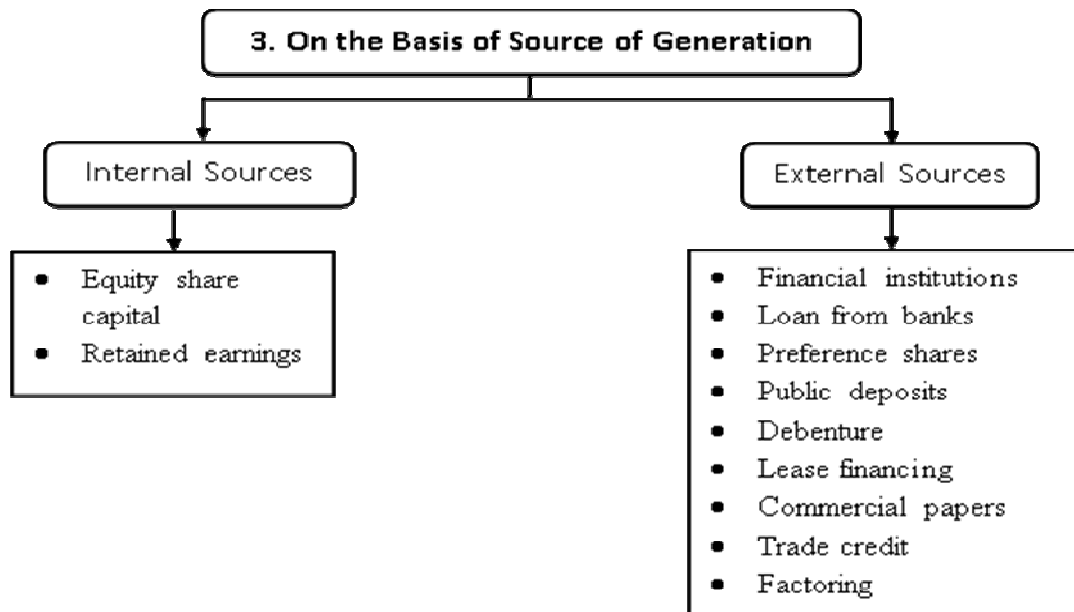

- **Introduction:**

(14 Marks)

Business cannot be run without money. Funds required to carry out business is called Business Finance. This chapter throws light on how the finances for the business can be arranged, what are the sources of funding and what terms and conditions are governed with each type of funding.

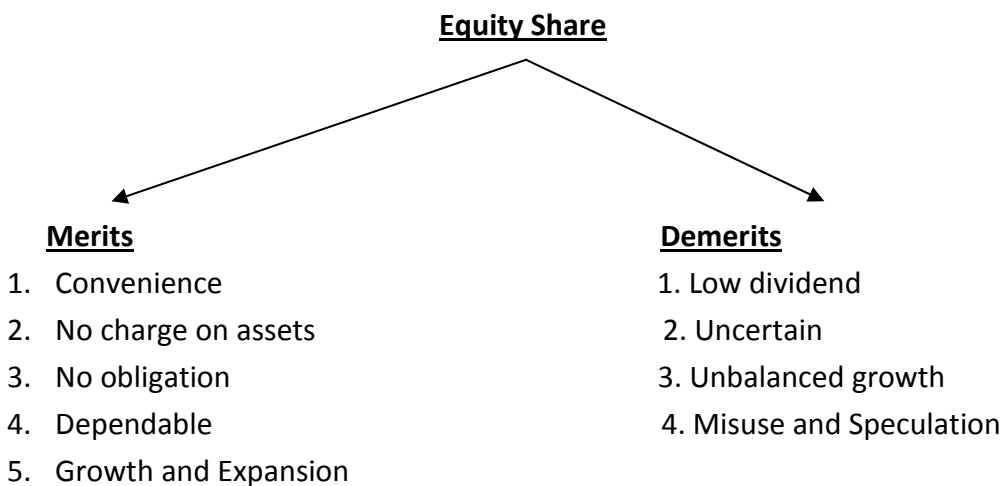

- **Sources of Funds :**

- **Share:** The amount of capital to be raised from public is divided into units of equal values. These units are known as SHARE.

Equity (Ordinary) shares are those which do not carry any special or preferential rights.

Debenture: It constitutes the borrowed funds of the company. It is an acknowledgement of debt. Debenture capital may be called **DEBT CAPITAL**.

Types Of Debentures

Debentures

• **Differences between Shares and Debentures**

BASIS	SHARES	DEBENTURES
1.Types of funds →	Owner's funds	Borrowed funds
2.Return →	Flexible	Fixed
3.Voting rights →	Available	No voting rights
4.Status of holders →	Owners of the company	Creditors of the company
5. Redemption →	Not redeemable	Mostly Redeemable
6.Charge →	No charge on assets	Charge on assets
7. Degree of risk for holders →	High	Low

• Public deposits:

Refers to the unsecured deposits invited by companies from the public. It can invite for a period of six months to 3 years. Public deposit cannot exceed 25% of its share capital & resources.

- **Lease financing:** A lease is a contractual agreement where by the owner of an asset grants rights to use the asset to other party for rent.

- **Short term funds:**

1. Trade credit: refers to the credit extended by one trader to another for purchasing goods or service. Small and new firms are usually more dependent on trade credit.

2. Factoring: It has emerged as a popular source of short term finance. It is a financial service where by the factor responsible for all credit control and debt collection from the buyers and provides protection against any bad debt losses to the firm.

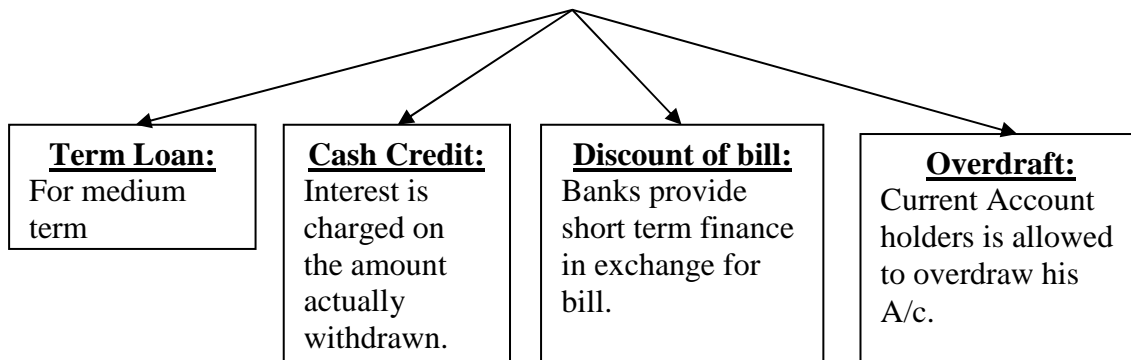

Two methods of Factoring

3. Commercial Paper (C.P.): It is an unsecured promissory note issued by firm to raise funds for a short period says 90 days to 364 days. Only firms having good credit rating can issue the C.P.

- **Loans From Commercial Banks**

Business can raise finance from commercial banks in the following ways

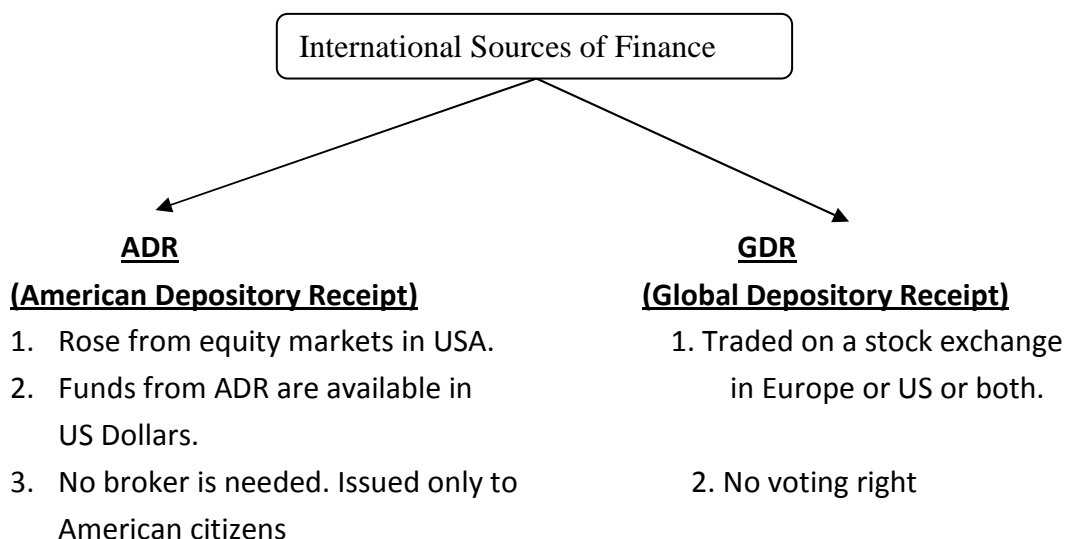

- **Loans from financial Institutions:**

Institutional finance means finance arranged from financial institutions other than commercial banks like IFCI, ICICI, IDBI, SFI etc.

- **International Sources of Finance:**

Financial institutions and investors in foreign countries can invest in the shares and debentures of Indian companies. Two main instruments used by Indian companies to tap international sources of finance are:

- **Factors affecting choice of Source of Funds**

1	TIME PERIOD	Long term finance is raised through shares and debentures. Short term finance is raised through trade credit, commercial paper, etc.
2	RISK	There is least risk on Equity shares as the capital need not be repaid. But in case of loan, interest has to be paid
3	CONTROL	Issue of equity shares may lead to dilution of control but debt involves no dilution of control.
4	EARNINGS	Stability of earnings are important because loan should be raised only when earning are sufficient.
5	TASK IMPACT	Interest on debenture is tax deductible. Dividend is not tax deductible.
