Poles were then herded like cattle in the other part called the General Government, the destination of all 'undesirables' of the empire. Members of the Polish intelligentsia were murdered in large numbers in order to keep the entire people intellectually and spiritually servile. Polish children who looked like Aryans were forcibly snatched from their mothers and examined by 'race experts'. With some of the largest ghettos and gas chambers, the General Government also served as the killing fields for the Jews.

One-third of the proposed jobs have been reserved for women. Prime Minister Rozgar Yozana is another scheme which was started in 1993. The aim of the programme is to create self-employment opportunities for educated unemployed youth in rural areas and small towns. They are helped in setting up small business and industries. Rural Employment Generation Programme was launched in 1995. The aim of the programme is to create self-employment opportunities in rural areas and small towns.
